

1. Purpose of this Update

Essex & Suffolk Water (ESW) is a trading division of Northumbrian Water Limited (NWL).

We updated PINS on our ESW Water Industry National Environment Programme (WINEP) Investigations on 16 July 2021.

Subsequently, we submitted a holding objection to the Sizewell C DCO on 23 July 2021. As promised in our holding objection letter, Section 2 below provides a further update on our WINEP investigations.

2. ESW Update

In our previous update, we confirmed that an interim WINEP report had been prepared by our consultants and that this was being reviewed by the Environment Agency. Further work has been identified by the Environment Agency which we will look to complete during August 2021.
