APPENDICES

Appendix A – DC/19/1637/FUL Planning permission for Sizewell B relocated facilities

Appendix B – DC/14/4224/FUL Planning permission for Aldurst Farm habitat creation scheme

Appendix C – Statement of Design Acceptability (SoDA) for the UK EPR™ design issued December 2012

Appendix D – DC/20/4646/FUL Planning permission for Sizewell B relocated facilities

1 OTHER CONSENTS AND LICENSES

1.1 Purpose of this document

1.1.1 The principal consent for the construction, operation and maintenance of the ‘Sizewell C Project’ (i.e. all components of the nuclear power station itself, as well as associated developments, which are the works required to facilitate development of the power station. will be an order made by the Secretary of State for development consent (the ‘DCO’) under section 103 of the Planning Act 2008 (the ‘Act’). The DCO will include the legal powers and rights required in order to construct, operate and maintain the Sizewell C Project. The DCO application will, however, need to be supplemented by other applications because:

- a specific consent cannot be contained in the DCO;
- a consenting authority declines to allow a consent to be obtained in the DCO; or
- it is not desirable, or it is inappropriate, to include a consent within the DCO due to the stage of design development and the level of detail available.

1.1.2 This report identifies the other consents, licences and agreements that are required to allow the construction, operation and maintenance of the Sizewell C Project which fall into the three categories listed above. As designs, techniques, methodologies and regulatory regimes evolve, SZC Co. will ensure that the correct consents, licences and agreements are obtained (by SZC Co. or by other companies in the EDF Energy Group) at the relevant times to comply with legislation.

1.1.3 This document is not in itself a requirement of Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 but supplements the response to Box 24 of the **Application Form** [\[APP-006\]](#) which relates to ‘details of other consents / licences required under other legislation’.

1.1.4 Paragraph 45 of the former Department for Communities and Local Government Planning Act 2008: Application Form Guidance (June 2013) provides the following guidance in this regard:

"Where the proposed development will also require other consents, licences, permits, etc, to enable it to be constructed and/or operational, and for which the Secretary of State is not the authorising body under the

Planning Act, then the applicant must list and briefly describe these in Box 24. Reference should be made to any that have already been applied for, and a copy enclosed of any that the applicant may already be in the possession of. Such other consents could be required for controlling pollution, for example".

1.1.5 In providing a suggested order of information submitted with a DCO application, the PINS Advice Note Six: *Preparing and submission of application documents (November 2019)* – whilst confirming that this document is not a statutory requirement – suggests that details of other consents and licences would sit within the ‘Reports / Statements’ category.

1.1.6 This schedule was updated at Deadline 3 of the Examination as follows:

- To reflect the Environmental Statement Addendum [AS-179 to AS-260];
- To refer to the second planning permission for the Sizewell B relocated facilities;
- To insert the Flood Risk Activity Permits and Land Drainage Consents for the fen meadow sites;
- To insert desalination in relation to the construction water discharge activity permits and abstractions licenses;
- To reflect progress and updates to the nuclear-related permits.

1.1.7 This schedule has been updated at Deadline 7 of the Examination as part of the Change Application (August 2021) as follows:

- To provide further clarity on the Flood Risk Activity Permit, Construction Water Discharge Activity Permits and Water Abstractions Licences in relation to the desalination plant.

1.2 Structure of this report

1.2.1 This report identifies the required additional consents and licences for each of the development components of the Sizewell C Project. Within each chapter the term “proposed development” refers to the development described in the description of development chapter(s) within the relevant volumes of the **Environmental Statement (ES)** [APP-159 to APP-582], as updated by the subsequent **ES Addenda** [AS-179 to AS-292, REP5-062 to REP5-069, Doc Ref. 6.18]. The chapters are structured, as follows:

- **Chapter 2** – Main Development Site, including the ecological mitigation sites (as described in **Volume 2, Chapters 2 to 5** of the **ES**, updated by **Volume 1, Chapter 2** of the **First ES Addendum**, **Volume 1, Chapter 2** of the **Second ES Addendum**, and **Volume 1, Chapter 3** of the **Fourth ES Addendum**)
- **Chapter 3** – Rail (as described in **Volume 9, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 9** of the **First ES Addendum**)
- **Chapter 4** – Sizewell Link Road (as described in **Volume 6, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 6** of the **First ES Addendum** and **Volume 1, Chapter 4** of the **Second ES Addendum**)
- **Chapter 5** – Two Village Bypass (as described in **Volume 5, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 5** of the **First ES Addendum** and **Volume 1, Chapter 3** of the **Second ES Addendum**)
- **Chapter 6** – Northern Park and Ride (as described in **Volume 3, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 3** of the **First ES Addendum**)
- **Chapter 7** – Southern Park and Ride (as described in **Volume 4, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 4** of the **First ES Addendum**)
- **Chapter 8** – Freight Management Facility (as described in **Volume 8, Chapter 2** of the **ES**)
- **Chapter 9** – Yoxford Roundabout and Other Highway Improvements (as described in **Volume 7, Chapter 2** of the **ES**, updated by **Volume 1, Chapter 7** of the **First ES Addendum**)

1.2.2 The other consents, licences and agreements identified in the tables in each of these chapters have either already been obtained or would be sought separately from the DCO. SZC Co. sees no impediment to obtaining any of these consents, licences or agreements.

1.3 The Sizewell C Project

1.3.1 The proposed Sizewell C nuclear power station would comprise two UK EPR™ units with an expected net electrical output of approximately 1,670 megawatts (MW) per unit, giving a total site capacity of approximately 3,340MW. The design of the UK EPR™ units is based on technology used successfully and safely around the world for many years, which has been enhanced by innovations to improve performance and safety. The UK EPR™

design has passed the Generic Design Assessment process undertaken by UK regulators (Office for Nuclear Regulation and Environment Agency), and has been licenced and permitted at Hinkley Point C. Once operational, Sizewell C would be able to generate enough electricity to supply approximately six million homes in the United Kingdom (UK).

1.3.2 In addition to the key operational elements of the UK EPR™ units, the Sizewell C Project comprises other permanent and temporary development to support the construction and operation of the Sizewell C nuclear power station. The key elements are the main development site, comprising the Sizewell C nuclear power station itself, offshore works, land used temporarily to support construction including an accommodation campus, the enhancement of sports facilities in Leiston, fen meadow and marsh harrier compensation habitat, and a series of off-site associated development sites in the local area. These are:

- Two temporary park and ride sites; one to the north-west of Sizewell C at Darsham (the ‘northern park and ride’), and one to the south-west at Wickham Market (the ‘southern park and ride’).
- Permanent road improvements on the A12 to bypass Stratford St Andrew and Farnham (referred to as ‘two village bypass’).
- A permanent road linking the A12 to the Sizewell C main development site (referred to as ‘Sizewell link road’).
- Permanent highway improvements at Yoxford roundabout and other road junctions.
- A temporary freight management facility at Seven Hills on land to the south-east of the A12/A14 junction.
- A temporary extension of the existing Saxmundham to Leiston branch line into the main development site (‘the green rail route’) and other permanent rail improvements on the Saxmundham to Leiston branch line.

Table 1.1: Main Development Site

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Planning / building regulations							
1	Planning permission – for Sizewell B relocated facilities.	East Suffolk Council.	Town and Country Planning Act 1990.	Sizewell B relocated facilities.	Would be required if the works to relocate Sizewell B facilities takes place prior to grant of DCO.	Submitted 18 April 2019 (LPA ref: DC/19/1637/FUL). Also included in the DCO application.	Planning permission granted on 13 November 2019 (at Appendix A)
2	Planning permission – for Sizewell B relocated facilities	East Suffolk Council	Town and Country Planning Act 1990	Sizewell B relocated facilities	Would be required if the works to relocate Sizewell B facilities takes place prior to the grant of DCO	Submitted 19 November 2020 (LPA ref: DC/20/4646/FUL). Also include in the DCO application.	Planning permission granted on the 18 February 2021 (at Appendix D)
3	Planning permission for Aldurst Farm habitat creation scheme	Suffolk Coastal District Council (now	Town and Country Planning Act 1990.	Aldhurst Farm habitat creation scheme designed to compensate for any future land-take	Required for the creation of the habitat	Submitted in December 2014 (application ref. DC/14/4224/FUL).	Planning permission granted in March 2015 (at Appendix

NNB Generation Company (SZC) Limited. Registered in England and Wales. Registered No. 6937084. Registered office: 90 Whitfield Street, London W1T 4EZ

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
		East Suffolk Council		from the Sizewell Marshes Site of Special Scientific Interest (SSSI) should the Sizewell C nuclear power station be granted consent and built	compensation scheme		B) and the main earthworks and waterbodies of the habitat creation scheme, was created in 2015 and 2016.
4	Building Regulations 2010 approval.	East Suffolk Council.	Building Regulations 2010.	Required in respect of buildings and structures forming part of the Proposed Development.	Required during construction.	Buildings Regulations Approval would be sought prior to and during the construction phase.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Wildlife / conservation							
5	Relevant Protected Species Licences	Natural England.	Conservation of Habitats and Species Regulations 2017.	Required for any components of the Proposed Development that affect protected species.	Required prior to construction of each component.	Post DCO application submission, ahead of construction.	“Ghost” licences (i.e. drafts) are expected to be provided to Natural England during the DCO examination prior to securing consent for the licence applications ahead of construction .

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
6	Natural England consent for works in a site of special scientific interest (SSSI).	Natural England.	Wildlife and Countryside Act 1981.	Required for works in the SSSI.	Required prior to construction.	Post DCO application submission, ahead of construction.	No current action.
Water							
7	Operational Water Discharge Activity Permit.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Allows discharge of non-radioactive water to sea.	Required prior to discharge to sea from the operational plant.	Application submitted at the same time as DCO application.	Application submitted.
8	Construction Water Discharge Activity Permits for main development site and potentially land east of Eastlands Industrial Estate (LEEIE).	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Discharge of waste water streams including but not restricted to treated surface water, groundwater, foul effluent, tunnelling effluent and desalination effluent.	Required prior to the first waste stream discharge activity.	Required prior to the first waste stream discharge activity.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
9	Water abstraction licence – for the abstraction of water during construction.	Environment Agency.	Water Resources Act 1991.	Abstraction licence required for main site dewatering within the cut-off wall (and potentially other locations, such as the CDO and desalinisation plant, depending on groundwater depth).	Required prior to any water abstraction.	Post DCO application submission, ahead of groundwater dewatering.	No current action.
10	Water impoundment/transfer licence.	Environment Agency.	Water Resources Act 1991.	May be required for construction and use of in-stream structures.	May be required subject to design.	Ahead of construction of specific activity.	No current action.
11	Flood Risk Activity Environmental Permit for main development site and potentially LEEIE/Lovers Lane.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Works to the Leiston Drain. Compensatory fen meadow habitat sites. Works near the Environment	Required prior to any works on or near a main river, in a flood plain, on or near a flood or sea defence.	Ahead of construction of specific activity.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
				Agency maintained sea flood defence.	Applicable to Leiston Drain.		
12	Land Drainage Consent.	Internal Drainage Board.	Land Drainage Act 1991.	Works to the Sizewell Drain.	Required prior to works affecting an ordinary watercourse. Applicable to Sizewell Drain.	Ahead of construction of specific activity.	No current action.
13	Fish Pass approval	Environment Agency.	Salmon and Freshwater Fisheries Act (1975)	To be confirmed but likely for Sizewell Drain and Leiston Drain.	May be required subject to confirmation of works that may affect Sizewell Drain and Leiston Drain.	Ahead of construction of specific activity.	No current action.
14	Flood Risk Activity Environmental Permit for the compensatory fen meadow habitat sites.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Works to the Pakenham Stream, River Fromus and Walpole River for the compensatory	Required prior to any works on or near a main river, in a flood plain, on or near a flood or sea defence.	Ahead of construction of specific activity.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
				fen meadow habitat sites.	Applicable to the Pakenham Stream, River Fromus and Walpole River.		
15	Land Drainage Consent for the compensatory fen meadow habitat sites.	Lead Local Flood Authority (Suffolk County Council).	Land Drainage Act 1991.	Works to the ordinary watercourses at the compensatory fen meadow habitat sites at Pakenham, Benhall and Halesworth.	Required prior to works affecting an ordinary watercourse. Applicable to all ordinary watercourses.	Ahead of construction of specific activity.	No current action.
Noise / air quality							
16	Operational Combustion Activity Permit.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Allows discharge of emissions to air.	Required prior to emissions to air from the operational plant.	Application submitted at the same time as DCO application.	Application submitted.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
17	Construction Combustion Activity Permit.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for any combustion plant used during construction which exceeds permit thresholds i.e. combined heat plant (CHP), diesel generators.	Required prior to use of combustion plant.	Ahead of specific construction activity.	No current action.
18	Greenhouse gas emissions permit.	Environment Agency.	Greenhouse Gas Emissions Trading Scheme Regulations 2012.	Required for any combustion plant used during construction, commissioning and operation which exceeds certain thresholds. i.e. emergency diesels during operation and potentially a CHP during construction.	Required prior to use of combustion plant.	Ahead of relevant activities taking place in construction, commissioning and operational phases.	No current action.

NNB Generation Company (SZC) Limited. Registered in England and Wales. Registered No. 6937084. Registered office: 90 Whitfield Street, London W1T 4EZ

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Waste							
19	Waste exemptions.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for a variety of waste treatments, uses and disposals including vegetation removal and reuse, seeding of sewage treatment plants.	Prior to treatment or use of waste.	Post DCO application submission, ahead of each specific waste management activity.	No current action.
20	Waste permit (mobile and static crushing operations).	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for crushers and other waste treatment plant.	Prior to use of waste treatment plant.	Post DCO application submission, ahead of construction activity.	No current action.
21	Waste permit (materials recycling facility / waste transfer station type facility).	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required waste segregation/transfer station/recycling facility).	Prior to use of waste treatment plant.	Post DCO application submission, ahead of construction activity.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
22	Waste permit (part B).	East Suffolk Council.	Environmental Permitting (England and Wales) Regulations 2016.	Waste activities which may cause emissions to air.	Prior to use of waste treatment plant.	Post DCO application submission, ahead of construction activity.	No current action.
Health and safety							
23	Hazardous Substances Consent.	East Suffolk Council.	Planning (Hazardous Substances) Act 1990.	Sites which want to hold certain quantities of hazardous substances at or above defined limits must obtain hazardous substance consent.	Notification of intent to be sent.	Prior to start of construction.	No current action.
24	COMAH notification.	Office of Nuclear Regulation (ONR) / Health and	Control of Major Accident Hazards Regulations 2015.	Required in relation to the storage of dangerous substances.	COMAH notification required prior to start of construction (and	Prior to start of construction.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
		Safety Executive (HSE) / Environment Agency.			COMAH compliance needed throughout lifecycle of the power plant).		
25	Notification of Construction Project (F10).	ONR (for licenced sites) or HSE.	Construction (Design and Management) Regulations 2015.	SZC Co. or an appointed party would be required to send notification under CDM Regulations .	An F10 notification is required to be submitted as early as possible to notify the HSE and/or ONR that a construction project has started.	F10 in place for main development site.	F10 in place for main development site.
Nuclear							
26	Radioactive Substances Regulation (RSR) Environmental Permit.	Environment Agency	Environmental Permitting (England and Wales)	Allows discharge and disposal of radioactive waste.	Required prior to having radioactive material on site.	Application submitted at the same time as DCO application.	Application submitted.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			Regulations 2016.				
27	Article 37 submission (for any plan for the disposal of nuclear waste).	European Commission.	European Atomic Energy Community (Euratom) Treaty.	Transboundary impacts to EU Member States from Radioactive Discharges under normal and potential accident conditions.	Positive outcome required for RSR Permit (above).	General Data was formerly submitted to the European Commission in August 2020. This was subject to an Oral Hearing in February 2021 and the UK Government is currently awaiting an outcome.	Application submitted. Awaiting decision.
28	Article 41 submission (for any undertakings in industrial activities listed in Annex II).	European Commission.	Euratom Treaty.	BEIS to submit sufficient information on the proposed new nuclear investment activity to the European	EC required to provide an opinion on the new nuclear investment plans scheduled in Member States.	The required information was submitted in July 2019. Subsequently the UK has withdrawn from the Euratom Treaty and	No longer required.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
				Commission on behalf of SZC Co.		revoked Article 41 ¹ . The Sizewell C Article 41 submission will therefore not progress further through due process.	
29	Generic Design Assessment.	ONR / Environment Agency.	Health and Safety at Work etc. Act 1974 (HSWA) Energy Act 2013 Nuclear Installations Act 1965	Required for the use of UK EPR™ reactor technology.	Allows the regulators to assess the safety, security and environmental implications of reactor designs.	Statement of Design Acceptability (SoDA) for the UK EPR™ design issued December 2012.	In place (attached at Appendix C)

¹ Parliament of the United Kingdom, European Union (Withdrawal Agreement) Act 2020. London 2020.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
30	Funded Decommissioning Programme.	Secretary of State for Energy and Climate Change.	Energy Act 2008.	Construction of a nuclear power station.	Shows that SZC Co. will have sufficient arrangements and provisions in place to manage the liabilities associated with Sizewell C at end of generation.	Decommissioning and Waste Management Plan (DWMP) submission Q2/3 2020. DWMP and Funding Arrangement Plan will be in place by the financial investment decision.	Discussions ongoing with UK Government around Funding Model and Funding Arrangements Plan (FAP). DWMP and FAP to be submitted together for Approval.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
31	Nuclear Site Licence ² .	ONR	Nuclear Installations Act 1965.	Required for the purpose of installing, operating and subsequently decommissioning any commercial nuclear power station	Required prior to construction activity that may impact on nuclear safety.	Submission June 2020, Anticipated approval Dec 2021.	Application being assessed.
32	Site Security Plan	ONR	Construction (Design and Management) Regulations 2015. Nuclear Industries Security	Security arrangements during construction and operation	Security plan required prior to start of construction	Prior to start of construction.	No current action.

² All necessary approvals and authorisations required by the Nuclear Site Licence in respect of design, construction and operation of the SZB relocated facilities would be sought from the ONR through the established processes and procedures governing SZB site

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			Regulations (NISR) 2003 Ionising Radiation Regulations 2017.				
Marine							
33	Deemed Marine Licence.	Secretary of State for Business Energy Industrial Strategy	Marine and Coastal Access Act 2009.	Activities for which a licence under Part 4 the Marine and Coastal Access Act 2009.	Although the Marine Licence required for the project is 'deemed' within the DCO, it still remains a separate licence.	The deemed marine licence (DML) is being sought for the Sizewell C Project through the DCO process, under s149A of the Planning Act 2008.	Submitted as part of DCO application.

Table 1.2: Rail Improvements

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Wildlife / conservation							
1	Relevant Protected Species Licences.	Natural England.	Conservation of Habitats and Species Regulations 2017.	Required for any components of the Proposed Development that affect protected species.	Required for each component prior to construction, maintenance and reinstatement.	Post DCO application submission, ahead of relevant works.	Ghost licences are expected to be provided to the relevant parties during the DCO application.
Water							
2	Land Drainage Consent.	Internal Drainage Board.	Land Drainage Act 1991.	May be required subject to design.	Required prior to works affecting an Ordinary Watercourse.	Ahead of construction of relevant works.	No current action.
3	Construction Water Discharge Activity Permit.	Environment Agency.	Environmental Permitting (England and Wales)	May be required for surface water.	Prior to discharge of construction water.	Ahead of discharge to a watercourse.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			Regulations 2016.				
Health and safety							
4	Notification of Construction Project (F10).	HSE	Construction (Design and Management) Regulations 2015.	SZC Co. or an appointed party would be required to send notification to HSE under CDM Regulations.	F10 notification required for each component of the Sizewell C Project that is geographically separate from the main development site.	Prior to construction.	No current action.
Waste							
5	Waste exemptions.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for a variety of waste treatments, uses and disposals including vegetation removal and reuse, seeding of sewage treatment plants.	Prior to treatment or use of waste.	Post DCO application submission, ahead of each specific waste management activity.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
6	Waste permit (mobile and static).	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for crushers and other waste treatment plant.	Prior to use of waste treatment plant.	Ahead of construction activity.	No current action.
7	Waste permit (part B).	East Suffolk Council.	Environmental Permitting (England and Wales) Regulations 2016.	Waste activities which may cause emissions to air.	Prior to use of waste treatment plant.	Ahead of construction activity.	No current action.

Table 1.3: Sizewell Link Road

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Wildlife / conservation							
1	Relevant Protected Species Licences.	Natural England.	Conservation of Habitats and Species Regulations 2017.	Required for any components of the Proposed Development that affect protected species.	Required for each component prior to construction and maintenance.	Post DCO application submission, ahead of relevant works.	Ghost licences are expected to be provided to the relevant parties during the DCO application.
Water							
2	Water impoundment/transfer licence.	Environment Agency.	Water Resources Act 1991.	May be required for construction and use of in-stream structures.	Required subject to design evolution.	Ahead of construction of specific activity.	No current action.
3	Flood Risk Activity Environmental Permit.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016	May be required subject to design.	Required prior to any works on or near a main river, in a flood plan, on or	Ahead of construction of relevant works.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
					near a flood or sea defence.		
4	Land Drainage Consent.	Internal Drainage Board.	Land Drainage Act 1991.	May be required subject to design.	Required prior to works affecting an Ordinary Watercourse.	Ahead of construction of relevant works.	No current action.
5	Construction Water Discharge Activity Permit.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	May be required for surface water.	Prior to discharge of construction water.	Ahead of discharge to a watercourse.	No current action.
Noise / air quality							
6	Prior consent(s) pursuant to Section 61 of the Control of Pollution Act 1974.	East Suffolk Council.	Control of Pollution Act 1974.	Control of noise and vibration during the construction phase.	Applied for prior to works which are likely to have noise and vibration impacts.	Post DCO application submission, ahead of relevant works.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
Health and safety							
7	Notification of Construction Project (F10).	HSE	Construction (Design and Management) Regulations 2015.	SZC Co. or an appointed party would be required to send notification to HSE under CDM Regulations	F10 notification required for each component of the Project that are geographically separate from the main development site.	Prior to construction.	No current action.
Transport / movement							
8	Movement Order for transport of abnormal indivisible loads (AILs) ³ .	Suffolk County Council / Highways England.	The Road Vehicles (Authorisation of Special Types) (General) Order	Required for all AILs to be brought in by road, Order to cover all roads on AIL route.	Required prior to each AIL.	Required during construction (timescales vary depending on size of load and requirement for	No current action.

³ Note that this is included for each of the highways elements (Sizewell link road, two village bypass and other highways improvements, but would not require separate orders for each element).

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			2003 / Road Traffic Act 1988.			mandatory police escort).	
9	Temporary Access Licences.	Suffolk County Council.	Highways Act 1980.	Required for any of the highway works that require a temporary access from the highway (e.g. accesses to construction compounds and construction access).	Required prior to construction of each component.	Prior to construction of each highways works.	No current action.
10	Section 50 Street Works Licences.	Suffolk County Council.	New Roads and Street Works Act 1991.	Licence to excavate in the public highway.	Required prior to construction of each component.	Prior to construction of each highways works.	No current action.
11	Temporary Signals on the highway.	Suffolk County Council.	Highways Act 1980 / Road Traffic Regulation Act 1984.	Required for all highway works to tie into the existing highway.	Required prior to construction of each component.	Prior to construction of each highways works.	No current action.

No.	Consent/Licence	Relevant Body	Key Legislation	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
12	Temporary Traffic Management.	Suffolk County Council.	Road Traffic Regulation Act 1984.	Temporary traffic management for highway works.	Required prior to construction of each component.	Prior to construction of each highways works.	No current action.
Waste							
13	Waste exemptions.	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for a variety of waste treatments, uses and disposals including vegetation removal and reuse, seeding of sewage treatment plants.	Prior to treatment or use of waste.	Post DCO application submission, ahead of each specific waste management activity.	No current action.
14	Waste permit (mobile and static).	Environment Agency.	Environmental Permitting (England and Wales) Regulations 2016.	Required for crushers and other waste treatment plant.	Prior to use of waste treatment plant.	Ahead of construction activity.	No current action.
