

The Sizewell C Project, Ref. EN010012

Correction of SCC position set out in the D7 submission [REP7-163] regarding SCC's response to ExQ TT.2.6

Suffolk County Council Registration ID Number: 20026012

13 September 2021

1. Suffolk County Council (SCC) seeks to notify the Examining Authority of a drafting error within our submission of [REP7-163], with regard to our response to ExQ2 TT.2.6. In the spirit of cross-agency working, we wished in this response to reflect the shared positions with Suffolk Constabulary (whose position was also reflected in Suffolk Constabulary's own Deadline 7 response under [REP7-155]), but in the process we included a statement from Suffolk Constabulary which does not represent SCC's position.
2. Under the subheading "Constitution of the Transport Review Group" (on page 30/31 of [REP7-163] we restated the Constabulary's position requesting for the Constabulary to be a full voting member of the Transport Review Group (TRG). We fully support this request, as we consider Suffolk Constabulary to be an important partner that would be able to make valuable contributions to this group.
3. However, we consider (unlike what was stated in our submitted response to TT.2.6) that Suffolk Constabulary's partnership should be **in addition** to National Highways' (was Highways England) membership of the TRG.
4. SCC continues to hold the view that, if the TRG is a voting body, the voting balance should be in favour of the public sector bodies – by a higher number of public sector members than members appointed by the Applicant, and/or by awarding SCC as the chair of the group a casting vote. This position was set out in a number of previous submissions, including [REP5-174].
