My name is Nadia Kuatois and I object to the planning of Sizewell C.

I cannot understand that is this day and age of climate emergency that this would be thought of as an environmental solution.

Where is the waste going to go! That is my sole question.

I object strongly as you can't get rid of the waste. It is damaging to the environment and catastrophic is anything goes wrong, and it will. Maybe not in your lifetime but in the lifetime of the children of our future.

Why would we gift them such a dangerous By Product.

Think about the future and not just about yourselves, that is the key.

Nadia Kuatois
