Subject: Desalination plant proposal
Date: 20 September 2021 12:34:10

The proposal to build this desalination plant is one of the most ludicrous and downright ridiculous Idea to have come out of this debacle called Sizewell C!

As a concerned local citizen,the whole idea of the proposed plant is extremely concerning to say the least,and this desalination plant is the latest in the long line of dangerous and welfare harming madness.

This cannot be allowed to happen, what safety measures are in place to prevent ingress of dangerous objects and wildlife?

Some form of Heath Robertson idea no doubt. Wake up to the peoples opposition, [REDACTED]
