Suffolk County Council Deadline 9 submission – Cover letter

Suffolk County Council Registration ID Number: 20026012

Deadline 9

30 September 2021

Dear Sir/Madam

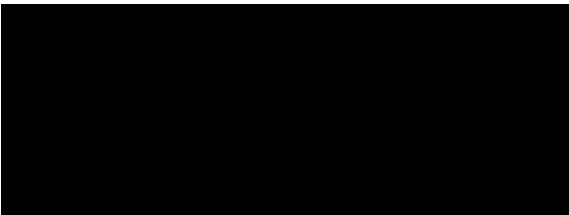

We note that the ExA has not specifically requested further information from Suffolk County Council (SCC) at Deadline 9.

At Deadline 8, in SCC's Post Hearing Submission after ISH 14 [REP8-185], SCC offered to provide at Deadline 9 additional information, in order to give the Examining Authority and the Applicant the opportunity to consider this in advance of the closure of the examination. This information relates to SCC having asked, in previous submissions, the ExA to consider four changes to the proposals which, if accepted by the ExA, would require changes to be made to the DCO. SCC has provided such amendments to the DCO in its Deadline 9 submission in relation to those changes, i.e. (a) changing the status of the Sizewell Link Road ("SLR") so that it is temporary; (b) removing the second outage car park at Goose Hill; (c) replacing the four new pylons and overhead cables inside the power station's security fence with gas insulated lines, and (d) changing the design of the SSSI crossing.

We trust that this information is helpful to the ExA.

For any queries, please contact Michael Moll, Programme Director Sizewell C, Suffolk County Council, [REDACTED]

Yours faithfully

Michael Moll
