---

Dear Examining Authority

Over the course of the Planning Hearing it has been clearly demonstrated that Sizewell C should not and indeed cannot be built.

The damage which will be caused by allowing the largest building site in Europe on an Area of Outstanding Natural Beauty which has been designated for environmental protection and open access would be nothing short of an act of Ecocide. The technology exists to meet the UK's energy needs without the huge environmental damage which Sizewell C would cause and I urge you to show courage in your decision to reject the application in order to avoid further irreplaceable loss of our green land.

Yours sincerely

Christine Collett
