1 INTRODUCTION

1.1 Status of the SOCG

1.1.1 This Statement of Common Ground (SoCG) has been prepared by NNB Generation Company Limited (the Applicant or SZC Co.), East Anglia TWO Limited (EA2L) and East Anglia ONE North Limited (EA1NL) in relation to the East Anglia TWO project (EA2) and the East Anglia ONE North project (EA1N). It identifies areas of the Sizewell C Development Consent Order (DCO) application (the Application) where matters are agreed or not agreed between the parties.

1.1.2 The purpose of this SoCG is to set out the position of the parties arising from the application for development consent for the construction and operation of the Sizewell C nuclear power station and together with the proposed associated development (hereafter referred to as ‘the Sizewell C Project’). This SoCG has been prepared in accordance with the ‘Guidance for the examination of applications for development consent’ published in March 2015 by the Department of Communities and Local Government (hereafter referred to as ‘DCLG guidance’).

1.1.3 The aim of this SoCG is, therefore, to inform the Examining Authority and provide a clear position on the state and extent of discussions and agreement between the parties on matters relating to the proposed Sizewell C Project.

1.1.4 This SoCG does not seek to replicate information which is available elsewhere within the DCO application documents. All documents are available on the Planning Inspectorate website.

1.2 Parties to this Statement of Common Ground

1.2.1 SZC Co. has submitted an application for development consent to build and operate a new nuclear power station, Sizewell C, along with the associated development required to enable construction and operation.

1.2.2 Collectively SZC Co., EA2L and EA1NL are referred to as ‘the parties’.

1.3 Structure of this Statement of Common Ground

1.3.1 **Chapter 2** provides a schedule which details the position on relevant matters between the parties.
