1 INTRODUCTION

- 1.1.1 This document has been produced in response to the Examining Authority's request [PD-005] for the provision of a 'signposting' document to facilitate interested parties' navigation of the development consent order (DCO) application documentation relating to the Sizewell C Project ('the proposed development').
- 1.1.2 The purpose of this document is to support or enhance interested parties' understanding of the nature of the proposed development for which SZC Co. seeks development consent, and of the parameters within which, if development consent were granted, the proposed development could be brought forward.
- 1.1.3 In particular, this document seeks to highlight the relationships between the **draft DCO** (Doc Ref. ~~3.1(C3.1(J))~~) and the **Environmental Statement (ES)** [APP-159 to APP-582], as updated by the subsequent **ES Addenda** [AS-179 to AS-292, REP5-062 to REP5-069, REP6-017, REP7-029 to REP7-033, REP8-072 to REP8-073] and information listed within the **ES Signposting Document** (Doc Ref. ~~Book 6~~) and **Environmental Statement Addendum** (~~Doc Ref. 6.14~~) documents **PDB-2(C)**.¹ However, it does not change or add to the content of those documents or the relationships between them.
- 1.1.4 Section 2 of this document sets out a signposting table with reference to where Works included within the draft DCO have been described and assessed within the Environmental Statement and Environmental Statement ~~Addendum~~**Addenda**, and where controls regulating the parameters of these Works are established.

¹~~Refer~~ Where not provided, refer to the **Navigation Document** (Doc. Ref. ~~3.1(1.3(Q))~~) for the latest versions of the **draft DCO**, **Environmental Statement** and **Environmental Statement Addendum** documents and their respective Examination Library reference numbers.
