Dear Sir,

I would like to strongly oppose the building of the Sizewell reactor.

Have visited the area, sadly the Current reactors are a blot on the landscape. The type of reactor EDF wants to build (the EPR) has an appalling track record. The few EPRs under construction are all well over budget and – in France and Finland – running a decade late. The only operating EPR in China has reported degraded fuel rod sealings and been closed after international attention.

Regards,

David
