---

The intention to construct this environmental monstrosity is. Disgusting and disgraceful.

You would be

Damaging the environment beyond repair

Detrimentially affecting and destroying rare wildlife

Carving up the countryside and blocking up roads and new roads with polluting traffic

Nobody in east anglia especially Suffolk is pro this rubbish proposal

It must be cancelled immediately

Anyone pro sizewell c should be ashamed of themselves and clear off out of not just this region but out of the country.

E Ayers
