---

To the Planning Inspectorate,

I understand the planning process is drawing to an end for Sizewell C and I would like to reiterate my concerns regarding this whole project. The main worry is the traffic and disruption on the A12. This is not a the sort of road that could easily manage high volumes of traffic and I am concerned about regular major disruption and the impact this has on local business. I am worried about the large number of extra workers coming to the region, again linked to traffic. Secondly the impact Sizewell C will have on our green space and habitat, once taken will never be replaced. In this delicate moment in climate history loss of rare habitat on any level seems an outrage.

I ask you to consider very carefully your decision regarding the above and hope very much you will vote in favour of a STOP to Sizewell C.
