Subject: The Sizewell C planning process
Date: 11 October 2021 20:49:47

Dear Sirs

I am even less convinced of the merits of the Sizewell C proposal now than I was 6 months ago. Particularly the following:

- * Lack of a secured long term water supply
- * concern about the impacts of a water desalination plant during construction
- * uncertainty about coastal defences amid new reports warning of sea level rise

I am also very concerned regarding the following points:

- * Traffic and disruption
- * Impact on local business
- * Influx of workers
- * Loss of rare habitat etc

I ask you not to go ahead with this planning process and to protect local and the wider environment.

Yours faithfully

Mary Gregory
