The Planning Inspectorate

RE Sizewell C

Dear Sir or Madam,

The proposal to build Sizewell C and the site of it will spoil our heritage coast for a very long time.

The proposed construction of a seven metre wall along the coast between the beach and the dunes will have a significant visual impact on the landscape.

Generally, the planning of the site offers many opportunities for the developer to work with all those living and working in the area. I have seen scant evidence of the many concerns that local people have with regard to the visual impact, the effect on wildlife and the impact on local roads being addressed.

This gives me significant grounds for concern and leads me to think this proposal should not go ahead.

Yours faithfully,

[REDACTED]

Nicholas Redman
