Hi please don't do it. Sizewell is just a horrible idea: too expensive, too hard to build, too French, too pension-tied, too tide-adjacent, too the last of its kind, too hard to dismantle, too close to rare birds, too ugly, too ineffective, too damaging to ecology, too requiring of big trucks for building, too eternally dangerous, too bright for night skies... did I mention too French?

It is such a bad idea. Your decision will live in infamy.

Please. Just don't do it.

Thank you,
