---

Sir,

I am writing to register a strong objection to the authorisation of this project.

There will be massive negative effects on the local environment - the presence of which is so important to the Biodiversity of East Anglia. Any go-ahead of this project will harm the fragile RSPB reserve at Minsmere massively and signify a complete disregard for nature conservation in general.

I urge you to please cancel the progression of this project at the earliest opportunity.

Regards,

Andrew Ashman
