Dear Sir/Madam,

I wish to register my total disapproval of EDFs proposals at Sizewell C. My family have lived for generations in Suffolk and I fear that my children and their future children will have the natural habitat around Sizewell destroyed by EDFs planned expansion. RSPB Minsmere is a haven for wildlife and protected species and I cannot believe the wanton destruction which Sizewell C will cause to the natural habitat. It will totally spoil the landscape, landscape which is currently appealing to tourists who come to enjoy the beautiful Suffolk coast. The impact on tourism and on the environment is most severe and I urge the planning inspectorate to reject EDFs plans forthwith.

Rachel Stanley
