Subject: Objection to Sizewell C
Date: 12 October 2021 21:26:59

Good evening,

I am writing to add my objection to the proposed Sizewell C project.

I live and work in East Suffolk and have grave concerns about many aspects of the proposal.

I could copy and paste lists of reasons this project is unsuitable for this area, I'm sure you will receive many such lists. I simply implore you to see reason.

EDF are not able to fund this project, without Chinese money or funding from major pension funds the costs will sit firmly with the tax payer - already facing increased costs across the board.

The coast here is constantly moving and eroding. Building a large wall is not the answer to solve this - we have been trying to stop erosion without success for centuries and with sea levels rising this is simply madness.

Even if the project is built on schedule it will not solve our current energy crisis. Money should be spent on renewable energies, increasing energy efficiency in homes and ensuring all new homes have solar panels as standard.

The project will be enormously damaging for the local environment, not least Minsmere on the doorstep but the wider Area of Outstanding Natural Beauty. Tourism is incredibly important for our area and this project will deter people from visiting as they do now.

I cannot express how worried I feel for the future if this project is given approval. Please say no.

Yours sincerely,
Dawn Baldry
