---

Dear Secretary of State,

I would like to object formally to the plan for Exmoor C.

The damage you will do to natural habitats and biodiversity in this exceptionally beautiful area, to RSPB Monkswear and the banks of coastal Northford, will make a nonsense of the government's Green Energy aspirations.

In effect, you will be destroying everything green in the area - and it will not come back.

Please listen to the many community groups who are desperate about your ill-considered plans.

If you destroy communities and you destroy the natural environment, what will remain worth living for?

Sincerely  
Henry Ford
