Dear Sir/Madam

Thank you for requesting feedback on Question 4.1: “The Applicant should advise as to whether or not they consider that a control mechanism(s) could secure the delivery of the Sizewell Link Road and Two Village Bypass in advance of the commencement of Phase 1 works on the Main Development Site, with consideration given to the effects of Heavy-Duty Vehicle movements on the B1122. Without prejudice to the Secretary of State’s decision on this matter, the Applicant should provide details of potentially appropriate control mechanism(s).”

This response is made following discussion with and on behalf system partners in the Suffolk and North East Essex Integrated Care System and colleagues representing Norfolk and Waveney Integrated Care System and in particular of the following organisations;

- Ipswich and East Suffolk Clinical Commissioning Group (on behalf of Primary Care and Community services)
- East Suffolk and North Essex NHS Foundation Trust
- Norfolk and Suffolk Foundation Trust
- East of England Ambulance Service Trust.

We have carefully considered the matter raised by the Secretary of State concerning the potential delivery by the applicant of the Sizewell Link Road and Two Village Bypass in advance of the commencement of Phase 1 works on the Main Development Site. Our position is that it is content with the construction timeline and mitigation provisions currently secured in the Deed of Obligation in respect of these two items of strategic infrastructure from an operational perspective.

Yours faithfully

Jane Taylor
