16. Mynydd y Gwynt.  
- Wind farm application

To: Mr. Philip Asquith  
Planning Inspectorate, Bristol,

Sir,

Re. your latest dated 5.5.15 -  
I detect "mission creep" in the developer's  
latest submissions for additional works not  
included in the original submissions.

Our experiences on Cefn Cboes showed a  
cynical disregard for the planning permission -  
endless changes & things added on - even the  
concrete-making factory, water abstraction from  
the river Wye, alterations to positions of the  
turbines, additional new roads, straightening of a  
river, (thereby obliterating the water votes), more  
clear-felling, Post construction, so many failures  
to comply with the consent conditions.

The developers have had years to get this  
application refined. Any changes at this late date  
must be rejected.

Yours etc
