11 February 2022

Dear Sir/Madam

Dogger Bank Creyke Beck Offshore Wind Farm Order 2015 – Non-material Change Application

We have received letter dated 17 December 2021 from Dogger Bank Wind Farm in relation to the above Development Consent Order and application for a non-material change.

The application seeks to amend the maximum energy that can be used by the pile hammer to install the pin-piles at the offshore platforms and the monopiles for the wind turbine generator foundations.

The Crown Estate does not have any objection to the proposed changes to the DCO.

Yours faithfully

[REDACTED]

Louise Rich
