

Subject: RE: Vattenfall application - Kentish Offshore Windfarm Proposal

I've just had a look at the developer's notice of deposit locations. For CCC this includes the following:

Canterbury City Council Offices: Herne Bay, Herne Bay, CT6 5NX
Canterbury City Council Offices: Canterbury, Military Road, Canterbury, CT1 1YW

I attach the full list of deposit locations for your information.

We sent the poster and flyers to all the deposit locations so that these could be displayed alongside the application documents which the developer has deposited at these places. There is no need for CCC to make any additional application documents available. Please feel free to refer people either to the application documents on our web-site or to these deposit locations.

Please let me know if you require any further information or clarification.

kind regards

Simone

Subject: Vattenfall application - Kentish Offshore Windfarm Proposal

Our Development Management team have recently received the promotional material (e.g. posters and flyers) from the IPC advertising how members of the public can make representations on the above application.

I would like to clarify with you pls what we (CCC) are obligated to make available in terms of the application documents deposited at our divisional offices. I am conscious that there is an enormous amount of paperwork associated with the application which we could not easily replicate and store. We also have three divisional offices in our district.

Can you confirm pls whether we are expected to make available selected documents etc on deposit or can the IPC make a set of documents available to us for people to view? or alternatively can we simply refer people that wish to see a specific document online.
