Subject: Re: HORNSEA PROJECT TWO OFFSHORE WIND FARM- EN010053

Dear Sir/Madam,

I refer to the above project and the request for comments dated 7 April 2016. Please take this email as North Lincolnshire Council 's (NLC) response to this letter. With regard to archaeology matters NLC can confirm that the concerns raised during the examination are resolved subject to further minor amendments shown below in red:

'(1)No part of the authorised development landward of MLWS is to commence within the area of a local planning authority until a written scheme for the investigation of areas of archaeological interest landward of MLWS has been submitted to and approved by the local planning authority.

(2) The scheme must identify areas where field work and/or a watching brief are required, and the measures to be taken to evaluate, protect, record or preserve any significant archaeological remains that may be found.

(3) Any archaeological works or watching brief carried out under the approved scheme must be by a suitably qualified person or body approved by the local planning authority.

(4) Any archaeological works or watching brief must be carried out in accordance with the approved scheme and staged reports of the measures taken to evaluate, protect, record or preserve any significant archaeological remains that are found must be submitted to and approved by the local planning authority before the commencement of any works that would affect those remains.'

I can also advise that NLC have agreed the above minor amendments with both Historic England and the applicant who I understand will provide confirmation of this agreement. Thank You.
