

Hornsea Offshore Wind Farm (Zone 4) Project Two

Responses to questions issued on 22nd June 2015 from East Lindsey District Council.(ELDC)

Registration number 10031139

PINS Ref ENO10053

EOO12 From the information to hand this Council is satisfied with the information relating to ecological impacts but this issue is best dealt with by the MMO and NE

EL5 It may be prudent to have a more up to date ecology survey carried out prior to work commencing just to cover the eventuality of any new ecological findings being made

EL8 This Council is content with the programme for replanting and management of the reinstated areas

LH3 Not Applicable to ELDC

LH4 Not applicable to ELDC

LH6 No outstanding concerns

LH7 No outstanding concerns

CL9 This Council are satisfied with the information supplied

CL10 East Lindsey are not best placed to comment on this and defer to the MMO and NE

CL15 This is a matter for the relevant highway authorities

SE2 ELDC has no comment on this issue

SE6 ELDC is very keen to ensure that local communities benefit from this development that affects their areas, and would appreciate more details as raised by the ExA. ELDC have advised the applicants (as they did when dealing with Project 1) that they would welcome being part of the discussions with local communities who perhaps have little experience of negotiating such benefits.
