| National Grid Gas Plc | As above for National Grid Electricity Transmission |
| Northern Powergrid Yorkshire Plc | <ul style="list-style-type: none"> • There are currently no bespoke Protective Provisions for the benefit of Northern Powergrid Yorkshire Plc in the DCO. • The Applicant considers that the Utility Undertaker provisions at Part 4 of Schedule L of the DCO would apply as Northern Powergrid Yorkshire Plc hold a distribution licence under Part 1 of the EA 1989 and therefore fall within the definition of utility undertaker in Paragraph 36 of those provisions. • The Applicant considers the form of Protective Provisions currently at Part 4 of the draft DCO are sufficient to enable the SoS to come to the conclusion that there would be no material detriment to the undertaking. • Notwithstanding, the Applicant is engaged with Northern Powergrid Yorkshire Plc. Northern Powergrid has informed the Applicant that it has a form of Protective Provisions it would like the Applicant to consider. The Applicant is currently awaiting receipt of a draft and has requested expedited production. • The Applicant will provide a further update at Deadline V. |
