Subject: Gradebrook Filling Stations Limited - Hornsea Offshore Wind Farm: Project 2

Dear Sirs

We represent Gradebrook Filling Stations Limited who are the owners of plots 383, 384, 391 and 392 in the proposed Compulsory Purchase Order for the Hornsea offshore wind farm - Project 2 proposals.

We have been asked to contact you to request that they can be represented at the hearings next week. Unfortunately the proprietor of Gradebrook Filling Stations Limited has been seriously unwell and an interim management solution has only been put in place and this matter has been picked up. We are aware that the deadline has been exceeded but hope that this can be addressed.

There was discussion with Fisher German Priestner (FGP) as land agents to the project developers earlier this year. At that point it was agreed with FGP that a much reduced area of the land, as shown on the attached plan which shows the title area of Gradebrook Filling Stations Limited and the area agreed for temporary occupation was all that was required. As set-out in the Compulsory Purchase Order the scheme will have a significant impact on the operations of the filling stations and is likely to require them to have to be closed whilst the cable installation is ongoing.

We have tried contacting FGP in the last 48 hours to get an understanding of where this matter has got to but feel that it is now necessary to ensure that Gradebrook Filling Station Limited can be represented at next week's Hearings to raise their concern. Alternatively we would like to enquire if we could make a more detailed written representation for the inspectorates consideration instead?

We look forward to hearing from you, hopefully by return.

Yours faithfully

Alexander Creed BSc (Hons) MRICS FAAV
