Good Morning David,

Following on from my email yesterday, I can confirm we have studied the amendment documentation and have no further comments, over-and-above what we stated in my email of the 25<sup>th</sup> August 2017 (attached).

I hope this answers your query on the matter.

Dear all,

Please find attached details of a proposed submission to BEIS for a non-material amendment to the Hornsea Project Two Onshore substation site. We wanted to send you the full application in advance of the formal consultation phase so you have a greater period of time to review. If you have no concerns in relation to the application if you could send a response to me outlining this and we can share this with BEIS. To confirm this relates directly to the email Richard responded to on the 31<sup>st</sup> August.

If you have any queries please do not hesitate to contact me.

Kind regards  
David
