Subject: Re: Hornsea 2 - Non Material Change

Planning Inspectorate,

Thank you for the opportunity to comment on the application for non-material change to the Hornsea Two Offshore Wind Farm.

I can confirm the MCA has no objection to reducing the maximum number of offshore HVAC collector substations and increasing the permitted maximum width and area of the offshore HVAC collector substation platforms.

We note that there is no change in the impact significance with regards to shipping and navigation.

Kind regards

Helen Croxson
