

Wrexham Energy Centre Examination Library

Updated –12/04/17

This Examination Library relates to the Wrexham Energy Centre application. The library lists each document that has been submitted to the examination by any party and documents that have been issued by the Planning Inspectorate. All documents listed have been published to the National Infrastructure's Planning website and a hyperlink is provided for each document. A unique reference is given to each document; these references will be used within the Report on the Implications for European Sites and will be used in the Examining Authority's Recommendation Report. The documents within the library are categorised either by document type or by the deadline to which they are submitted.

Please note the following:

- Advice under Section 51 of the Planning Act 2008 that has been issued by the Inspectorate, is published to the National Infrastructure Website but is not included within the Examination Library as such advice is not an examination document.
- This document contains references to documents from the point the application was submitted.
- The order of documents within each sub-section is either chronological, numerical, or alphabetical and confers no priority or higher status on those that have been listed first.

OD-009	Wrexham County Borough Council - Pre-examination Correspondence Clarifying RR-040.¹

¹ This communication was received before the Preliminary Meeting. As pre-examination correspondence, it was at that time considered on an administrative basis only. It clarified that this was a representation from the Economic Development Team. It was used to adjust the published title of RR-040 to reflect that rather than representing the views of the council as a whole, it was a representation from the Economic Development Team. It is published now to confirm that position
