EXAMINING AUTHORITY'S SECOND WRITTEN QUESTIONS AND REQUESTS FOR INFORMATION.

I refer to the above and would make the following comments:-

2. Air Quality and Emissions.

2.1.1. WCBC agrees with the comments in section 2.1.1.

With regards to the air quality section, the stack height will be a requirement in the permit and the

Operator or agent will need to demonstrate to the regulator (N R W) that their proposed height meets

the emissions limits. Failure to abide by a condition in the Environmental permit is a grounds for

enforcement action.

2.12 Other Strategic Projects and Proposals

2.12.1 WCBC satisfied with the scope of the assessment

2.7.2. No

2.7.10 NO

2.7.11 YES but presumably CPAT consulted

2.7.12 YES

2.7.14 Yes

2.7.4 I understand secondary routes are to be used with a clear local alternative for most of the route.

2.7.8 I understand a revised CEMP will be submitted by the applicant with further discussions with Kelloggs.

2.10 Noise and vibration.

Not aware of any additional information that has been received by Public Protection that would have an impact on the noise assessment as submitted.
