29 MASTER CONSULTEE LIST

1. This appendix contains the master list of all consultees and defines which consultee group they were placed into (note some consultees are included in more than one group) and what phases of consultation they participated in. Highlighted in bold are the consultees which are included in Schedule 1 of the Applications: Prescribed forms and Procedures Regulations 2009 (APFP).
2. It should be noted that all names of individuals have been removed from this appendix and replaced with a unique identification number which is consistent throughout the Consultation Report and its appendices. This leaves the main contacts/position column mostly empty.
