Subject: Re: Tr: EN010056 East Anglia Three Offshore Wind Farm - Transboundary Screening Notification
Date: 25 April 2016 09:44:04

Dear M. Hunt,

As my colleague David Catot told you last week, the French local authorities wish to participate to the consultation on the East Anglia Three Offshore Windfarm. Regarding the likely impacts of this project, the Region Nord-Pas-de-Calais-Picardie considers it appropriate to hold a public consultation on its territory. In application of article 4 of the Espoo Convention, the French local authorities will contact you to fix the modalities of this participation (to this end, M. CLAVREUIL Pierre is in copy of this email).

At this stage, the Maritim Prefecture of Manche and Mer du Nord also has a few comments to make on this project and the information transmitted :

- the impact assessment on the activities of foreign commercial fishing fleets, particularly the fleets of neighboring countries such as France, is described as "tolerable", without further details. It would be pertinent to examine precisely what the real impact on the French fleet that usually frequent the site.
- The assessment of the impacts also demonstrated probability of interference, during the operational phase, with the civil and military radars.

As part of the development of future French wind farms, it would be interesting that France could be kept informed of future consultations of this project, to be aware of studies and evaluations of which will serve him to analyze the possible reduction measures impacts for its own parks

Dear M. Hunt,

Please excuse the slight delay in responding to your notification. Following the previous email of my colleague Ms. Fouraison, we confirm you that France wishes to participate to this consultation. We will also wish to organise a public consultation on this project due to the proximity to the French coasts and to other Wind farm projects planned on the French maritime territory.

We have already some reactions of our services and will receive some more further at the beginning of next week. We propose to send you all these reactions together at the beginning of next week, in order to send you all of them in one message.

Yours sincerely,

David Catot

Dear M. Hunt,

By this email, we acknowledge receipt of your notification concerning "East Anglia Three Offshore Wind Farm - Transboundary Screening Notification".

We will perform a quick internal consultation to decide if we intend to participate to this consultation and we will go back to you before 21 april 2016.

I have a question concerning the timing of this consultation : if France decides to participate to this consultation, will we have to send our comments by 21 april 2016 or will we have more time?

Best regards,

Dear Ms Fritsch

please find attached the transboundary screening notification in respect of the proposed East Anglia Three Offshore Wind

Farm. A formal London Gazette Notice will be published on 16 March 2016.

yours sincerely

Richard Hunt
