Dear Rick

**East Anglia THREE Offshore Wind Farm
Scottish Power Renewables (UK) Ltd
Offshore Wind Farm Cable Route**

We are the agents acting for Mr Chris Mann who is the owner of the land identified as Plots 4 to 7 on East Anglia THREE's land plans being immediately adjacent to the beach at Bawdsey, Suffolk where Scottish Power are planning to bring ashore their underground cables from an offshore wind farm, crossing beneath the beach and under Mr Manns land en route to the National Grid Bramford substation west of Ipswich.

Please accept this letter as confirmation that, once the works for the East Anglia THREE project have been completed, our client does not anticipate that the 'open space' beach land at Bawdsey Cliffs will be any less useful or subject to any more onerous restrictions than it is currently.

Yours sincerely

Samuel Jennings MRICS FAAV
