31 October 2016

Dear Sir/Madam

### **East Anglia THREE Ltd – Request for further information**

I am writing in response to your letter dated 28 October 2016 informing us that the DCO to build 102 turbines has not been secured and the EA1 DCO can still be fully implemented for up to 150 turbines. Although there were no questions directed at the MCA in the letter I have the following comment to make.

In January 2016, the MCA formally agreed to a layout plan consisting of 102 turbines. Should East Anglia ONE Ltd not be able to secure legal authority, a new layout plan may need to be designed. In this event the plan will need to be agreed with the MCA (Navigation Safety and Search and Rescue branches).

A layout plan for East Anglia THREE has not yet been sighted.

Yours faithfully,

Nick Salter  
Offshore Renewables Advisor  
Navigation Safety Branch
