Dear Sirs

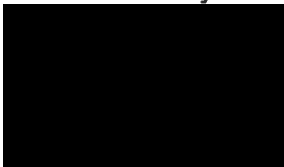

Application for a Non-Material Change To The East Anglia THREE Offshore Wind Farm Order 2017 (S1 2017/826)

We have received a letter and notice from East Anglia THREE Limited regarding an application for a non-material change to the Development Consent Order ("DCO").

The Crown Estate was previously consulted on the DCO and we have therefore been informed of the proposed increase in the maximum generating capacity from 1,200 MW to 1,400 MW, the amendment of Schedule 1 Part 3 paragraph 8 to replace the current 600MW capacity per phase with a combined set of parameters for the two offshore phases to increase flexibility in the development of the project and the introduction of a restriction in the number of gravity base foundations to not exceed 100.

The Crown Estate does not have any objection to the proposed amendments to the East Anglia THREE Offshore Wind Farm DCO.

Yours faithfully

Stuart Curry
Senior Development Manager Offshore Wind
