10th April 2019

Dear Sir or Madam,

The East Anglia Three Offshore Wind Farm Order 2017 – Application for a Non-material Change

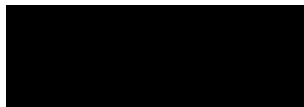

I write to confirm the safeguarding position of the Ministry of Defence (MOD) in relation to the application for a non-material change to the East Anglia Three Offshore Wind Farm Order 2017 (2017 Order).

The Application seeks to change the authorised project in Schedule 1, Part 1 of the 2017 Order to allow the maximum generating capacity of the development to increase from 1200MW to 1400MW. In addition, the Application seeks confirmation of no upper limit to the wind turbine generation capacity, or where this is not acceptable, an upper limit of 19MW.

East Anglia Three Ltd have confirmed that mitigation to avoid the adverse effects of the wind farm on the air defence radar at RRH Trimmingham is secured within the 2017 Order by Requirement 33 and will not change. I can therefore confirm that the MOD has no objection to this application.

I trust this adequately explains our position on the matter. If you would like to discuss this matter further please do not hesitate to contact me.

Yours sincerely

Claire Duddy
Assistant Safeguarding Officer
