Subject: EXTERNAL: RE: East Anglia THREE Non Material Change

Afternoon Christie,

I have been in contact with BEIS regarding SPR's NMC application regarding a possible extension to the 26th April deadline, as we are a bit tight on resource currently over the Easter period. As a result, it has been agreed that we will submit our response to BEIS and yourselves by the 3rd May.

I hope that doesn't cause any problems for yourselves, but please get in touch if you have any queries.

Kind regards,

Will

Hi Will,

Please excuse the error I made in my previous email.

As per the attached letter, the last date for receipt of your consultation response is **11.59pm on 26 April 2019**.

Apologies,

Christie

Dear Will

The East Anglia Three Offshore Wind Farm Order 2017 - Application for a Non-material Change

Further to our email correspondence dated 27 March 2019, in relation to consultation of East Anglia Three Limited's (EATL) application for a non-material change to the East Anglia THREE Offshore Wind Farm Order 2017 (2017 Order).

We write to update you that the last date for receipt of your consultation response is in fact, **11.59pm on 25 April 2019** and not 11.59pm on 24 April 2019 as set out in our earlier correspondence to you on this matter. We apologise for any confusion caused.

Additionally I would be grateful if you could confirm you are happy to receive service on this consultation by email?

If you have any questions or require clarification on the content of this letter please do not hesitate to contact us.

Yours sincerely

Christie

Afternoon Christie,

I acknowledge receipt of the below email and the associated attachments. We shall discuss the case internally and submit a response to BEIS and SPR in due course.

Kind regards,

Will

Subject: East Anglia THREE Non Material Change

Dear Lou and Will,

I would be grateful if you could acknowledge, on behalf of NE, safe receipt of this email and its enclosures.

East Anglia THREE Limited (EA3) has submitted an application to the Department for Business, Energy and Industrial Strategy (BEIS) seeking a non-material change to the East Anglia THREE Offshore Wind Farm.

EA3 is seeking an amendment to the following:

- To the maximum generating capacity from 1,200MW to 1,400MW
- Confirmation of no upper limit to WTG capacity or, where this is not acceptable, an upper limit of 19MW.

The parameters associated with the largest capacity WTG (and associated foundations) will not be exceeded under any development scenario and no amendments are sought in respect of these parameters.

In addition, EA3 will seek to limit the maximum number of gravity base foundations used by the project from 172 to 100. This change ensures no assessed impacts are exceeded by the proposed change, and are described fully in the Non-Material Change supporting information.

The Application also seeks to allow more flexibility in delivery of the phases, albeit that the approach of up to two phases will not change.

EA3 do not propose to increase generation of electricity to the national grid; the purpose of the change is to take account of electrical losses to deliver 1,200MW to the national grid, thereby improving the commercial viability of the project.

If you have any queries or wish to clarify anything on the above points or attached documents we would welcome the opportunity to discuss this further.

Kind regards,

Christie
