Subject: RE: Internal Power Generation Enhancement for Port Talbot Steelworks (EN010062)

Dear Sirs,

As previously advised, on behalf of the Civil Aviation Authority (CAA) I can confirm that the Authority's position related to the proposed development (which would include a pair of chimney stacks a maximum of 80m high) is as described within associated material submitted by Tata Steel UK Ltd (notably the Consultation Report). If the height of any associated structure exceeds 80m (measured above ground level), please advise and I can amend the CAA input appropriately.

I trust this brief comment meets the requirements of the Rule 17 letter.
