### BY EMAIL

Dear Tracey Williams,

**Application No:** CB/17/05208/DCO  
**Location:** Millbrook Power, Rookery Pit, Millbrook, Bedford, MK45 2JH  
**Proposal:** Application by Millbrook Power Ltd for an Order granting Development Consent for Millbrook Power Project

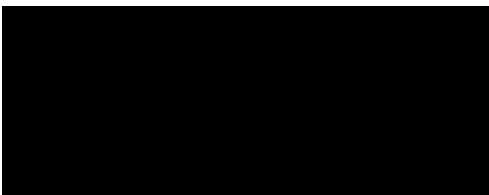

Thank you for your letter of 23 October 2017 requesting our representation on Millbrook Power's adequacy of consultation in relation to the Millbrook Power gas-fired generation plant.

We have reviewed The Millbrook Power (Gas Fired Power Station) Order Consultation Report and it is our view that Millbrook power have complied with the duty to consult (Section 42 of the Act), the duty to consult the local community (Section 47 of the Act) and the duty to publise (Section 48 of the Act). We have reached this conclusion on the following reason:

Millbrook Power prepared a Statement of Community Consultation setting out their proposal for consulting residents who lived in the vicinity of the site. They sought our views on 2no statements: September 2014 and May 2017. We consider that they have had regard to the responses that we sent to them and that our residents would be well involved and consulted during the pre-application stage. Millbrook Power's statement was published on their website and in newspapers. We consider that they have carried out their consultations in accordance with the proposals set out in the statement.

If you have any further questions please contact the above lead officer Dee Walker on the contact details above

Yours sincerely,

**Jason Longhurst**  
**Director of Regeneration and Business**
