Subject: Re: EN010068 Millbrook Power Project

Dear Ewa

As you are aware I am the owner of all the land surrounding the Pylon and have no intention of having this land disturbed for the insulting offer made by the agent

I am not interested in having this land disturbed as this land is for sale and I have no intention of upsetting buyers by having to wait an unknown amount of time as the interest I have had has also no interest in having this land disturbed as they have clear plans for it

I object to the use of my land

Kind regards

John Moran

These people were offered the land for sale and didn't reply - i would have thought access as owners of the land and pylon would in the scheme of things been peanuts compared to what they are spending but they were that rude they didn't even have the decency to reply

They think as a PLC they can bully landowners with paltry offers and ignore every reply we make

If they want to buy the land they can do what they like with it - if they don't they can keep of and not trespass or disturb my property
