Agendas

Please note:

This agenda is for guidance only. It is not designed to be exclusive or exhaustive. The Examining Authority (ExA) may add other issues for consideration, may alter the order in which issues are considered and will seek to allocate sufficient time to each issue to allow proper consideration of them.

Any lack of discussion of a particular issue at this Hearing does not preclude further examination of this issue, including further written questions.

Should the consideration of the issues take less time than anticipated, the ExA may conclude the hearing as soon as all relevant contributions have been made and all questions asked and responded to.

If there are additional matters to be dealt with or there are submissions that take a considerable amount of time at any hearing there may be a need to continue the session for longer on the day. Alternatively it may be necessary to prioritise matters and defer others to further written questions. The ExA recognises that other Hearings may contribute information and evidence which will be used in support of a recommendation in respect of Compulsory Acquisitions.
