Dear Sirs,

Abergelli Power Development Consent Order

We act for National Grid in respect of both National Grid Gas Plc and National Grid Electricity Transmission Plc's assets affected by the above order.

Please find attached a written representation on behalf of National Grid.

We note that whilst questions were raised by ExA about connection to National Grid assets and protective provisions, that these questions were directed to the promoter and no questions were asked directly of National Grid. As such we haven't submitted any responses to ExA's first round of written questions. We would however note that National Grid's objection should be considered an object to Compulsory Acquisition powers until such time as protective provisions are agreed and National Grid's relevant representation has been withdrawn. Accordingly National Grid should have been listed in Annex A of the ExA's first round of written questions document.

Yours sincerely
