

Annwyl Syr/Madam / Dear Sir/Madam,

Abergelli Power Limited – Proposed Gas Fired Power Plant - Deadline 3 Comments

Environmental Permitting Regulations (EPR) Permit

Following a query raised in the Issue Specific Hearing (ISH) during the afternoon of 13 December 2018, we can confirm that a copy of the draft permit for the development is available on our website at: <https://naturalresources.wales/permits-and-permissions/permit-applications-consultations-and-decisions/current-consultations-environmental-permit-draft-decisions/drax-power-limited/?lang=en>

The permitting process is on-going as discussed in the ISH. The draft permit and decision document are currently being advertised on our website (with an end date for comments by 17 January 2019), and any responses to the consultation process will need to be considered as part of the permitting process, therefore we cannot currently provide a fixed end date to this process at this time. We will be able to provide further updates to this as and when the permit progresses.

DCO Requirements

We are satisfied with the wording of the DCO Requirements put forward under document version 1B. It is our understanding that we will be consulted on a further revision of the DCO requirements under version 1C to be submitted by Deadline 4.

Kind Regards,
Hannah Roberts
