Date: 25 February 2016

Dear Sir/Madam

**Planning Act 2008 (as amended) and The Infrastructure Planning
(Examination Procedure) Rules 2010 (as amended) – Rule 13 and Rule 16**

**Application by North London Waste Authority for an Order Granting
Development Consent for the North London Heat and Power Project**

**Notification of site inspection in the company of interested parties and issue
specific hearing**

I write to advise you that a site inspection in the company of interested parties will be held on **Thursday 17 March 2016** at **10.00am**, beginning at:

The Car Park
EcoPark,
Advent Way,
Edmonton,
London, N18 3AF

The purpose of the site inspection is to enable me to visit particular locations which will help inform me about particular aspects of the examination. It is not an opportunity for discussion or representations to me by interested parties. A draft itinerary of locations that will be visited during the inspection is annexed to this letter (Annex A). Final details of the itinerary taking into consideration suggestions by interested parties will be published on the National Infrastructure Portal as soon as practicable in advance of the event.

As confirmed at the Preliminary Meeting on 24 February 2016, interested parties who wish to attend the site visit must notify the North London Heat and Power Project case team at the postal or email address above by **9 March 2016**. Public access to the EcoPark is restricted and prior registration is therefore essential to ensure entry to the site. If you are planning on arriving at the EcoPark by car, please also provide the North London Heat and Power Project case team with your vehicle registration

number.

In addition, interested parties with recommendations of locations or items to add to the draft itinerary (see Annex A) are invited to submit these to the case team by **9 March 2016**. Please note that the site visit is likely to involve walking on uneven terrain and safety shoes or stout enclosed shoes are required. Waste management activities can be dusty, therefore it is suggested that you wear appropriate clothing.

I also write to advise you that an issue specific hearing on the draft Development Consent Order ('DCO') will be held on **Friday 18 March 2016** at:

The Artzone,
1st Floor, 54-56 The Market Square
Edmonton Green Shopping Centre
Fore Street
London, N9 0TZ

Registration will open at 9.30am and the hearing will commence at **10.00am**. An agenda for the hearing will be published on the National Infrastructure website in the week before the event.

Those interested parties who wish to speak at the hearing should notify the North London Heat and Power Project case team at the postal or email address above by **9 March 2016**. I should be grateful if you would inform us if you plan to attend the hearing even if you do not wish to speak.

For both events, it would also assist us if you could notify us of any special needs you may have (eg disabled access, hearing loop etc). Please ensure that you include your interested party reference number in your correspondence.

As 9 March 2016 is also identified within the examination timetable as the deadline for various submissions it would greatly assist the organisation of the hearing if you could provide the above details separately to any other submission you might make.

If you have any further queries, please do not hesitate to contact us.

Yours faithfully

Paul Hudson

Paul Hudson
Examining Authority

Advice may be given about applying for an order granting development consent or making representations about an application (or a proposed application). This communication does not however constitute legal advice upon which you can rely and you should obtain your own legal advice and professional advice as required.

A record of the advice which is provided will be recorded on the National Infrastructure Planning website together with the name of the person or organisation who asked for the advice. The privacy of any other personal information will be protected in accordance with our Information Charter which you should view before sending information to the Planning Inspectorate.
