An application has been made to the Secretary of State under section 37 of the Planning Act 2008^(a) (the “2008 Act”) and in accordance with the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009^(b) for an Order under sections 114, 115, 120, 122, 123 and 140 of the 2008 Act.

(a) 2008 c.29 Parts 3 and 6 were amended by Section 137 and Schedule 13 to the Localism Act 2011 (c.20).

(b) S.I. 2009/2264, amended by the Localism Act 2011 (Infrastructure Planning) (Consequential Amendments) Regulations 2012 (S.I. 2012/635), Infrastructure Planning (Prescribed Consultees and Interested Parties etc) (Amendment) Regulations 2012 (S.I. 2012/635), Infrastructure Planning (Prescribed Consultees and Interested Parties etc) (Amendment) Regulations 2013 (S.I. 2013/522), Infrastructure Planning (Applications: Prescribed Forms and Procedure) (Amendment) Regulations 2014 (S.I. 2014/2381) and the Infrastructure Planning (Environmental Impact Assessment) (Amendment) Regulations 2012 (S.I. 2012/787).

The application was examined by a single appointed person (appointed by the Secretary of State) in accordance with Chapters 3 and 4 of Part 6 of the 2008 Act and the Infrastructure Planning (Examination Procedure) Rules 2010 (a).

The single appointed person, having considered the representations made and not withdrawn and the application together with the accompanying documents, in accordance with section 83 of the 2008 Act, has submitted a report to the Secretary of State.

The Secretary of State, having considered the report and recommendation of the single appointed person, has taken into account the environmental information in accordance with regulation 3 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009(b), and decided the application, and has determined to make this Order giving effect to the proposals comprised in the application with modifications which in the opinion of the Secretary of State do not make any substantial changes to the proposals.

The Secretary of State is satisfied that the special category land (as identified in the book of reference), when burdened with the Order rights, will be no less advantageous than it was before to persons in whom it is vested, other persons, if any, entitled to rights of common or other rights and the public, and that accordingly, section 132(3) of the 2008 Act applies.

Accordingly, in exercise of the powers conferred by sections 37, 114, 115, 120, 123 and 140 of the 2008 Act, the Secretary of State makes the following Order:

There are other amendments to this Act which are not relevant to this Order.

Limits of deviation

4.—(1) The development authorised by this Order must be constructed, operated and maintained in the lines or situations shown on the works plans.

(2) In constructing, operating and maintaining the authorised development, the undertaker may—

- (a) subject to lateral limits of deviation relating to piling approved in piling risk assessments and method statements submitted pursuant to requirement 4 (Detailed design approval) deviate laterally from the lines or situations shown on the works plans to the extent of the limits of deviation shown on the works plans; and
- (b) deviate vertically from the levels shown for those works on the works plans—
 - (i) subject to requirement 5 of Schedule 2 (requirements) to any extent upwards within the limits of deviation as is shown on the works plans; and
 - (ii) subject to vertical limits of deviation relating to piling approved in piling risk assessments and method statements submitted pursuant to requirement 4 (Detailed design approval) any extent downwards as may be necessary, convenient or expedient.

Maintenance of authorised development

5.—(1) Subject to article 3 (development consent etc. granted by the Order), article 4 (limits of deviation), article 16 (discharge of water), and article 28 (temporary use of land for maintaining authorised development) and Schedule 2 (requirements) of this Order, the undertaker may at any time maintain the authorised development, except as far as this Order or an agreement made under this Order provides otherwise.

(2) Subject to Schedule 2 (requirements), the power to maintain the authorised development includes the power to carry out and maintain any of the following as may be necessary or expedient for the purposes of, or for purposes ancillary to, the construction or operation of the authorised development, namely –

- (a) works to alter the position of apparatus above and below ground level;
- (b) works to maintain the proposed access from Lee Park Way (including the bridge over the River Lee Navigation within the Order limits) that is included in the description of Works No. 4 in Schedule 1 (authorised development); and
- (c) works to maintain the landscaping that is included in the description of Works No. 4 in Schedule 1 (authorised development).

Operation of the authorised development

6.—(1) The undertaker (and any person to whom the undertaker grants a contract to operate the authorised development) is authorised to operate the authorised development.

(2) Other than as set out in this Order, this article does not relieve the undertaker of any requirement to obtain any permit or licence or any other obligation under any other legislation that may be required to authorise the operation of any part of the authorised development.

Benefit of Order

7. Subject to article 8 (consent to transfer benefit of Order), this Order is for the benefit of the undertaker.

Consent to transfer benefit of Order

8.—(1) The undertaker may, with the consent of the Secretary of State—

- (a) transfer to another person (“the transferee”) any or all of the benefit of the provisions of this Order and such related statutory rights as may be agreed between the undertaker and the transferee; or
- (b) grant to another person (“the lessee”) for a period agreed between the undertaker and the lessee any or all of the benefit of the provisions of this Order and such related statutory rights as may be so agreed.

(2) Where an agreement has been made in accordance with paragraph (1) references in this Order to the undertaker, except in paragraph (3), include references to the transferee or the lessee.

(3) The exercise by a person of any benefits or rights conferred in accordance with any transfer or grant under paragraph (1) is subject to the same restrictions, liabilities and obligations as would apply under this Order if those benefits or rights were exercised by the undertaker.

(4) The consent of the Secretary of State is not required if the transferee or lessee is LondonWaste Limited provided it is wholly owned by North London Waste Authority.

Defence to proceedings in respect of statutory nuisance

9.—(1) Where proceedings are brought under section 82(1) of the Environmental Protection Act 1990(a) (summary proceedings by person aggrieved by statutory nuisance) in relation to a nuisance falling within paragraph (g) of section 79(1) of that Act (noise emitted from premises so as to be prejudicial to health or a nuisance) no order will be made, and no fine may be imposed, under section 82(2) of that Act if—

- (a) the defendant shows that the nuisance—
 - (i) relates to premises used by the undertaker for the purposes of or in connection with the construction or maintenance of the authorised development and that the nuisance is attributable to the carrying out of the authorised development in accordance with a notice served under section 60 (control of noise on construction sites), or a consent given under section 61 (prior consent for work on construction sites) of the Control of Pollution Act 1974(b); or
 - (ii) is a consequence of the construction or maintenance of the authorised development and that it cannot reasonably be avoided; or
- (b) the defendant shows that the nuisance—
 - (i) relates to premises used by the undertaker for the purposes of or in connection with the use of the authorised development and that the nuisance is attributable to the use of the authorised development which is being used in accordance with a scheme of monitoring and attenuation of noise agreed with the relevant planning authority as described in requirement 17 (control of noise during operational stage) or in accordance with noise levels set out in an environmental permit relating to the operation of the authorised development; or
 - (ii) is a consequence of the use of the authorised development and that it cannot reasonably be avoided.

(2) Section 61(9) (consent for work on construction site to include a statement that it does not of itself constitute a defence to proceedings under section 82 of the Environmental Protection Act 1990) of the Control of Pollution Act 1974 does not apply where the consent relates to the use of premises by the undertaker for the purposes of or in connection with the construction or maintenance of the authorised development.

(a) 1990 (c.43). Subsection (1) of section 79 was amended by section 24 of the London Local Authorities Act 1996 (c.i), section 120 of, paragraphs 1 and 2(a) of Schedule 17 to, paragraph 89 of Schedule 22 to, and Schedule 24 to the Environment Act 2005 (c.25), section 101 of the Clean Neighbourhoods and Environment Act 2005 (c.16) and section 2 of the Noise and Statutory Nuisance Act 1993 (c.40). Section 82 was amended by section 107 of and paragraphs 1 and 6 of Schedule 17 to, the Environment Act 1995 (c.25), section 5 of the Noise and Statutory Nuisance Act 1993 (c.40), and section 103 of the Clean Neighbourhoods and Environment Act 2005 (c.16). There are other amendments to this Act which are not relevant to this Order.

(b) 1974 (c.40). Section 61(9) was amended by section 162 of, and paragraph 15 of Schedule 3 to, the Environmental Protection Act 1990 (c.25). There are other amendments to this Act which are not relevant to this Order.

Street works

10.—(1) The undertaker may, for the purposes of the authorised development, enter on the parts of any of the streets specified in Schedule 4 (streets subject to street works) as is within the Order limits and may—

- (a) break up or open the street, or any sewer, drain or tunnel under it;
- (b) tunnel or bore under the street;
- (c) place apparatus in the street;
- (d) maintain apparatus in the street or change its position; and
- (e) execute any works required for or incidental to any works referred to in sub-paragraphs (a) to (d).

(2) The authority given by paragraph (1) is a statutory right for the purposes of sections 48(3) (streets, street works and undertakers) and 51(1) (prohibition of unauthorised street works) of the 1991 Act.

(3) The provisions of sections 54 to 106 of the 1991 Act apply to any street works carried out under paragraph (1).

(4) In this article “apparatus” has the same meaning as in Part 3 of the 1991 Act.

Alteration of street layout

11. The undertaker may for the purposes of constructing the authorised development, alter the layout of each of the streets specified in column (2) of Schedule 5 (streets subject to alteration of layout) (and carry out works ancillary to such alteration) in the way specified in relation to that street in column (3) of Schedule 5 (streets subject to alteration of layout).

Public rights of way

12.—(1) Subject to paragraph (2), the undertaker may, in connection with the carrying out of the authorised development, temporarily suspend the sections of the public rights of way shown on plans C_0012 Rev 01, C_0013 Rev 00 and C_0014 Rev 01 and specified in columns (2) and (3) of Schedule 6 (public rights of way to be temporarily suspended) to the extent specified in column (3) of Schedule 6 (public rights of way to be temporarily suspended) for the duration of the construction of the authorised development.

(2) The public rights of way specified in columns (2) and (3) of Schedule 6 (public rights of way to be temporarily suspended) must not be suspended under this article unless the alternative rights of way specified in column (4) of Schedule 6 (public rights of way to be temporarily suspended) are first provided by the undertaker.

(3) The alternative rights of way referred to in paragraph (2) must be provided for the duration of the construction of the authorised development.

(4) Subject to paragraph (5), with effect from the commencement of the authorised development the section of public right of way along Lee Park Way as referred to in column (2) of Schedule 7 (public rights of way to be extinguished) will be extinguished to the extent specified in column (3) of Schedule 7 (Public rights of way to be extinguished).

(5) The public right of way specified in paragraph (4) must not be extinguished under this article unless the alternative rights of way shown in column (4) of Schedule 7 (public rights of way to be extinguished) are first provided, to the reasonable satisfaction of the relevant planning authority.

Temporary stopping up of streets

13.—(1) The undertaker, during and for the purposes of carrying out the authorised development, may temporarily stop up, alter or divert any street (or part of it) within the Order limits and may for any reasonable time—

- (a) divert the traffic from the street (or the relevant part of it); and

(b) subject to paragraph (2), prevent all persons from passing along the street (or the relevant part of it).

(2) The undertaker must provide reasonable access for pedestrians going to or from premises abutting a street affected by the temporary stopping up, alteration or diversion of a street (or relevant part of it) if there would otherwise be no such access.

(3) Without prejudice to the generality of paragraph (1), the undertaker may temporarily stop up, alter or divert the streets specified in Schedule 8 (streets to be temporarily stopped up) to the extent specified, in that Schedule.

(4) The undertaker must not temporarily stop up, alter or divert—

(a) any street specified as mentioned in paragraph (3) without first consulting the street authority in accordance with the provisions of Schedule 3 (procedure for approvals, consents and appeals); and

(b) any other street without the consent of the street authority which may attach reasonable conditions to any consent (such consent to be obtained in accordance with the provisions of Schedule 3 (procedure for approvals, consents and appeals)).

(5) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(6) If the relevant street authority fails to notify the undertaker of its decision within 56 days beginning with the receipt of an application for consent under paragraph (4) that street authority will be deemed to have granted consent.

Access to works

14. For the purposes of the authorised development, the undertaker may—

(1) form and lay out means of access, or improve existing means of access, in the locations specified in Schedule 9 (access to works); and

(2) with the approval of the relevant planning authority after consultation with the highway authority, form and lay out such other means of access or improve existing means of access, at such locations within the Order limits as the undertaker reasonably requires for the purposes of the authorised development.

Agreements with street authorities

15.—(1) A street authority and the undertaker may enter into agreements with respect to—

(a) the construction or demolition of any structure carrying a street over a body of water;

(b) the maintenance of the structure of any bridge carrying a street over a body of water;

(c) the construction or alteration of any new or existing access to the authorised development;

(d) any temporary stopping up, alteration or diversion of a street authorised by this Order; or

(e) the carrying out in the street of any of the works referred to in article 10 (street works) or any of works referred to in article 11 (alteration of street layout).

(2) Without limiting paragraph (1), such an agreement may—

(a) make provision for the street authority to carry out any function under this Order which relates to the street in question;

(b) include an agreement between the undertaker and street authority specifying a reasonable time for the completion of the works; and

(c) contain such terms as to payment and otherwise as the parties consider appropriate.

Discharge of water

16.—(1) The undertaker may use any watercourse or any public sewer or drain for the drainage of water in connection with the carrying out or maintenance of the authorised development and for that purpose may lay down, take up and alter pipes and may, on any land within the Order limits, make openings into, and connections with, the watercourse, public sewer or drain.

(2) The undertaker must not discharge any water into any watercourse, public sewer or drain except with the consent of the person to whom it belongs, such consent not to be unreasonably withheld or delayed but may be given subject to such terms and conditions as that person may reasonably impose.

(3) The undertaker must not make any opening into any public sewer or drain except—

- (a) in accordance with plans approved by the person to whom the sewer or drain belongs and such approval must not be unreasonably withheld or delayed; and
- (b) where that person has been given the opportunity to supervise the making of the opening.

(4) The undertaker must not, in carrying out or maintaining works under this article, damage or interfere with the bed or banks of any watercourse forming part of a main river, subject to the works that are authorised under this Order. The undertaker must take such steps as are reasonably practicable to secure that any water discharged into a watercourse or public sewer or drain under this article is as free as may be practicable from gravel, soil or other solid substance, oil or matter in suspension.

(5) Any dispute arising from the making of connections to or the use of a public sewer or drain by the undertaker pursuant to paragraph (1) shall be determined as if it were a dispute under section 106 of the Water Industry Act 1991(a) (right to communicate with public sewers).

(6) In this article—

- (a) “public sewer or drain” means a sewer or drain which belongs to the Environment Agency, an internal drainage board, a local authority, a sewerage undertaker; and
- (b) other expressions, excluding watercourse, used both in this article and in the Water Resources Act 1991(b) have the same meaning as in that Act.

(7) This article does not relieve the undertaker of any obligation to obtain from the Environment Agency any permit, licence or any other obligation under any other legislation that may be required to authorise the making of a connection to or the use of a public sewer or drain by the undertaker under paragraph (1) or the discharge of any water into any watercourse, sewer or drain under paragraph (2).

Protective work to buildings

17.—(1) Subject to the following provisions of this article, the undertaker may at its own expense carry out such protective works to any building lying within the Order limits as the undertaker considers necessary or expedient.

(2) Protective works may be carried out—

- (a) at any time before or during the carrying out of any part of the authorised development in the vicinity of the building; or
- (b) after the completion of that part of the authorised development in the vicinity of the building at any time up to the end of the period of 5 years beginning with the day on which that part of the authorised development is first opened for use.

(a) 1991 (c.56). Section 106 has been amended by sections 35, 43 and 56 of the Competition and Service (Utilities) Act 1992 (c.43), sections 36 and 99 of the Water Act 2003 (c.37) and section 32 of, and paragraph 16(1) of Schedule 3 to, the Flood and Water Management Act 2010 (c.29). There are other amendments to this Act that are not relevant to this Order.

(b) 1991 (c.57). There are other amendments to this Act that are not relevant to this Order.

(3) For the purpose of determining how the functions under this article are to be exercised the undertaker may enter and survey any building falling within paragraph (1) and any land within its curtilage.

(4) For the purpose of carrying out protective works under this article to a building the undertaker may (subject to paragraphs (5) and (6))—

- (a) enter the building and any land within its curtilage; and
- (b) where the works cannot be carried out reasonably conveniently without entering land which is adjacent to the building but outside its curtilage, enter the adjacent land (but not any building erected on it).

(5) Before exercising—

- (a) a right under paragraph (1) to carry out protective works to a building;
- (b) a right under paragraph (3) to enter a building and land within its curtilage;
- (c) a right under paragraph (4)(a) to enter a building and land within its curtilage; or
- (d) a right under paragraph (4)(b) to enter land,

the undertaker must, except in the case of emergency, serve on the owners and occupiers of the building or land not less than 14 days' notice of its intention to exercise that right and, in a case falling within sub-paragraph (a) or (c), specifying the protective works proposed to be carried out.

(6) Where a notice is served under paragraph (5)(a), paragraph (5)(c) or paragraph (5)(d), the owner or occupier of the building or land concerned may, by serving a counter-notice within the period of 7 days beginning with the day on which the notice was served, require the question of whether it is necessary or expedient to carry out the protective works or to enter the building or land to be referred to arbitration under article 35 (arbitration).

(7) The undertaker must compensate the owners and occupiers of any building or land in relation to which rights under this article have been exercised for any loss or damage arising to them by reason of the exercise of those rights.

(8) Where—

- (a) protective works are carried out to a building under this article; and
- (b) within 5 years beginning with the day on which the part of the authorised development carried out in the vicinity of the building is first opened for use it appears that the protective works are inadequate to protect the building against damage caused by the carrying out or use of that part of the authorised development,

the undertaker must compensate the owners and occupiers of the building for any loss or damage sustained by them.

(9) Nothing in this article relieves the undertaker from any liability to pay compensation under section 10(2) of the 1965 Act (compensation for injurious affection).

(10) Any compensation payable under paragraph (7) or paragraph (8) must be determined, in case of dispute, under Part 1 of the 1961 Act (determination of questions of disputed compensation).

(11) In this article “protective works” in relation to a building means—

- (a) underpinning, strengthening and any other works the purpose of which is to prevent damage which may be caused to the building by the carrying out, maintenance or use of the authorised development; and
- (b) any works the purpose of which is to remedy any damage which has been caused to the building by the carrying out, maintenance or use of the authorised development.

Authority to survey and investigate

18.—(1) The undertaker may for the purposes of this Order enter on any land shown within the Order limits or land up to 250 metres beyond the Order Limits which may be affected by the authorised development and, with the prior approval of the relevant planning authority (or the

local planning authority for land outside the London Borough of Enfield), onto land which is more than 250 metres beyond the Order limits, and—

- (a) survey or investigate the land;
- (b) without limiting sub-paragraph (a), make trial holes in such positions on the land as the undertaker thinks fit to investigate the nature of the surface layer and subsoil and remove soil samples;
- (c) without limiting sub-paragraph (a), carry out ecological or archaeological investigations on such land; and
- (d) place on, leave on and remove from the land apparatus for use in connection with the survey and investigation of land and making of trial holes.

(2) A notice must be served on every owner and occupier of the land at least 14 days before any land may be entered or equipment placed or left on or removed from the land under paragraph (1).

(3) Any person entering land under this article on behalf of the undertaker —

- (a) must, if so required entering the land, produce written evidence of their authority to do so; and
- (b) may take with them such vehicles and equipment as are necessary to carry out the survey or investigation or to make the trial holes.

(4) No trial holes may be made under this article—

- (a) in land located within the highway boundary without the consent of the highway authority, but such consent must not be unreasonably withheld or delayed; or
- (b) in a private street without the consent of the street authority, but such consent must not be unreasonably withheld or delayed.

(5) The undertaker must compensate the owners and occupiers of the land for any loss or damage arising by reason of the exercise of the authority conferred by this article, such compensation to be determined, in case of dispute, in accordance with Part 1 (determination of questions of disputed compensation) of the 1961 Act.

Compulsory acquisition of land

19.—(1) The undertaker may acquire compulsorily so much of the Order land as is required for or to facilitate the authorised development, or is incidental to the authorised development.

(2) From the later of the date on which a compulsory acquisition notice under section 134(3) of the 2008 Act is served or the date on which the Order land, or any part of it, is vested in the undertaker, that land or that part of it which is vested (as the case may be) will be discharged from all leases, licences, rights, easements, liberties, privileges, advantages, restrictions, covenants, trusts and incidents to which it was previously subject.

(3) Any person who suffers loss by the extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(4) This article is subject to article 23 (compulsory acquisition of rights) and article 27 (temporary use of land for carrying out the authorised development).

Time limit for exercise of authority to acquire land compulsorily or use land temporarily

20.—(1) After the end of 7 years beginning on the day on which this Order is made—

- (a) no notice to treat may be served under Part 1 of the 1965 Act; and
- (b) no declaration may be executed under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981 as applied by article 24 (application of the Compulsory Purchase (Vesting Declarations) Act 1981).

(2) The authority conferred by article 27 (temporary use of land for carrying out the authorised development) ceases at the end of the period referred to in paragraph (1), save that subject to

article 27(3) and article 27(5) nothing in this paragraph prevents the undertaker remaining in possession of land after the end of that period, if the land was entered and possession was taken before the end of that period.

Power to override easements and other rights

21.—(1) Any authorised activity carried out by the undertaker or by its successor under a transfer or lease under article 8 (consent to transfer benefit of Order), is authorised if it is done in accordance with the terms of this Order, notwithstanding that it involves—

- (a) an interference with an interest or right to which this article applies; or
- (b) a breach of a restriction as to the user of land to which this article applies.

(2) In this article “authorised activity” means—

- (a) the construction, operation or maintenance of the authorised development;
- (b) the exercise of any power authorised by this Order; or
- (c) the use of any land (including the temporary use of land) authorised by this Order.

(3) The interests and rights to which this article applies are any easement, liberty, privilege, right or advantage annexed to land and adversely affecting other land, including any natural right to support and right to light. The restrictions to which this article applies are restrictions as to the user of land arising by contract.

(4) Where any interest, right or restriction to which this article applies is interfered with or breached, the interest, right or restriction is extinguished, temporarily suspended or discharged at the time the interference or breach commences in respect of the authorised activity in question, to the extent required for or ancillary or incidental to the carrying out of the authorised activity.

(5) Where any interest, right or restriction to which this article applies is interfered with or breached under paragraph (1), compensation—

- (a) is payable under section 7 or 10 of the 1965 Act; and
- (b) is to be assessed in the same way and subject to the same rules as in the case of other compensation under those sections where—
 - (i) the compensation is to be estimated in connection with a purchase under that Act; or
 - (ii) the injury arises from the execution of works on or use of land acquired under that Act.

(6) Nothing in this article is to be construed as authorising any act or omission on the part of any person which is actionable at the suit of any person on any grounds other than such an extinguishment, temporary suspension or discharge as is mentioned in paragraph (4).

Statutory authority to override easements and other rights

22.—(1) The carrying out or use of development authorised by this Order and the doing of anything else authorised by this Order is authorised by virtue of section 158 (nuisance: statutory authority) of the 2008 Act, notwithstanding that it involves—

- (a) an interference with an interest or right to which this article applies; or
- (b) a breach of a restriction as to user of land arising by contract.

(2) The undertaker must pay compensation to any person whose land is injuriously affected by—

- (a) an interference with an interest or right to which this article applies; or
- (b) a breach of a restriction as to user of land arising by contract,

authorised by virtue of this Order and the operation of section 158 of the 2008 Act.

(3) The interests and rights to which this article applies are any easement, liberty, privilege, right or advantage annexed to land and adversely affecting other land, including any natural right to

support. The restrictions to which this article applies are restrictions as to the user of the land arising by contract.

(4) Subsection (2) of section 10 (further provision as to compensation for injurious affection) of the 1965 Act applies to paragraph (2) by virtue of section 152(5) of the 2008 Act.

(5) Any rule or principle applied to the construction of section 10 of the 1965 Act must be applied to the construction of paragraph (2) (with any necessary modifications).

Compulsory acquisition of rights

23.—(1) The undertaker may acquire compulsorily the existing rights and create and acquire compulsorily the new rights (including new rights in relation to apparatus owned or operated by statutory undertakers and / or rights over land belonging to statutory undertakers within the Order land) described in the book of reference, set out in Schedule 10 (land in which rights etc., may be acquired) and shown on the land plans.

(2) From the later of—

- (a) the date on which a compulsory acquisition notice is served; or
- (b) the date on which any new right is vested in the undertaker,

the land over which any new rights are acquired will be discharged from all rights, trusts and incidents to which it was previously subject so far as their continuance would be inconsistent with the exercise of that new right.

(3) Subject to section 8 of the 1965 Act, as substituted by Schedule 11 (modification of compensation and compulsory purchase enactments for creation of new rights) where the undertaker acquires an existing right over land in paragraph (1) the undertaker is not required to acquire a greater interest in that land.

(4) Any person who suffers loss as a result of the extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(5) Schedule 11 (modification of compensation and compulsory purchase enactments for creation of new rights) has effect for the purpose of modifying the enactments relating to compensation and the provision of the 1965 Act in their application in relation to the compulsory acquisition under this article of a right over land by the creation of a new right.

Application of the Compulsory Purchase (Vesting Declarations) Act 1981

24.—(1) The Compulsory Purchase (Vesting Declarations) Act 1981(a)—

- (a) applies as if this Order were a compulsory purchase order; and
- (b) as so applied, has effect with the following modifications.

(2) In section 3 (preliminary notices), for subsection (1) substitute—

“(1) Before making a declaration under section 4 with respect to any land which is subject to a compulsory purchase order, the acquiring authority must include the particulars specified in subsection (3) in a notice which is—

(a) 1981 (c.66), Sections 2 and 6 and subsection (6) of section 11 have been amended by section 4 of, and paragraph 52 of Schedule 2 to, the Planning (Consequential Provisions) Act 1990 (c.11). Section 3 has been amended by section 34 of, and paragraph 37 of part 3 of Schedule 5 to, the Infrastructure Act 2015 (c.7). Section 10, subsection (4) of section 11 and paragraphs 4, 8 and 9 of Schedule 1 have been amended by article 5 of, paragraphs 145 – 148 of Schedule 1 to, and Schedule 5 to, the Transfer of Tribunal Functions (Lands Tribunal and Miscellaneous Amendments) Order 2009 (S.I. 2009/1307). Section 15 and Schedule 2 have been amended by section 161 of, and paragraphs 6 and 7 of Schedule 19 to, the Leasehold Reform, Housing and Urban Development Act 1993 (c.28) and sections 56 and 321 of, paragraph 33 of Schedule 8 to, and Schedule 16 to the Housing Regeneration Act 2008 (c.17). Paragraphs 1 and 3 have also been amended by section 76 of, and paragraph 12 of part II of Schedule 9 to, the Housing Act 1988 (c.50). Schedule 3 was amended by section 277 of, and Schedule 9 to, the Inheritance Tax Act 1984 (c.51). There are other amendments to this Act that are not relevant to this Order.

- (a) given to every person with a relevant interest in the land with respect to which the declaration is to be made (other than a mortgagee who is not in possession); and
 - (b) published in a local newspaper circulating in the area in which the land is situated”
- (3) In that section, in subsection (2), for “(1)(b)” substitute “(1)” and after “given” insert “and published”.
- (4) In that section, for subsections (5) and (6) substitute—
- “(5) For the purposes of this section, a person has a relevant interest in land if—
- (a) that person is for the time being entitled to dispose of the fee simple of the land, whether in possession or in reversion; or
 - (b) that person holds, or is entitled to the rents and profits of, the land under a lease or agreement, the unexpired term of which exceeds one month.”
- (5) In section 5 (earliest date for execution of declaration)—
- (a) in subsection (1), after “publication” insert “in a local newspaper circulating in the area in which the land is situated”; and
 - (b) omit subsection (2).
- (6) In section 7 (constructive notice to treat), in subsection (1)(a), omit “(as modified by section 4 of the Acquisition of Land Act 1981)”.
- (7) References to the 1965 Act in the Compulsory Purchase (Vesting Declarations) Act 1981 are to be construed as references to that Act as applied by section 125 of the 2008 Act to the compulsory acquisition of land under this Order.

Rights under or over streets

25.—(1) The undertaker may enter on and appropriate so much of the subsoil of, or air-space over, any street within the Order limits as may be required for the purposes of the authorised development and may use the subsoil or air-space for those purposes or any other purpose ancillary to the authorised development.

(2) The undertaker may exercise any power conferred by paragraph (1) in relation to a street without being required to acquire any part of the street or any easement or right in the street.

(3) Subject to paragraph (4), any person who is an owner or occupier of land appropriated under paragraph (1) without the undertaker acquiring any part of that person’s interest in the land, and who suffers loss as a result, is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(4) Compensation is not payable under paragraph (3) to any person who is an undertaker to whom section 85 of the 1991 Act (sharing cost of necessary measures) applies in respect of measures of which the allowable costs are to be borne in accordance with that section.

Rights over buildings

26.—(1) The undertaker may enter into and appropriate so much of air-space over any land within the Order limits and over land located within [x] metres of the Order limits as may be required for the purposes of the authorised development and may use the air-space for those purposes or any other purposes ancillary to the authorised development.

(2) The undertaker may exercise any power conferred by paragraph (1) in relation to land without being required to acquire any part of the land or any easement or right in the land.

(3) Subject to paragraph (4), any person who is an owner or occupier of land appropriated under paragraph (1) without the undertaker acquiring any part of that person’s interest in the land, and who suffers loss as a result, is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(4) Compensation is not payable under paragraph (3) to any person who is an undertaker to whom section 85 of the 1991 Act (sharing cost of necessary measures) applies in respect of measures of which the allowable costs are to be borne in accordance with that section.

Temporary use of land for carrying out the authorised development

27.—(1) The undertaker may, in connection with the carrying out of the authorised development—

- (a) enter on and take temporary possession of the land specified in Schedule 12 (land of which temporary possession may be taken) for the purpose specified in relation to that land in that Schedule relating to the part of the authorised development specified in that Schedule;
- (b) remove any buildings, structures and vegetation from that land; and
- (c) remediate, carry out site levelling, surfacing, erect fencing and/or other means of enclosure, install utilities and services, and construct temporary works (including the provision of means of access), buildings and structures on that land.

(2) The undertaker must service notice of its intended entry on the owners and occupiers of the land at least 14 days before entering on and taking temporary possession of the land under this article.

(3) Subject to paragraph (4), the undertaker may not, without the agreement of the owners of the land, remain in possession of any land under this article after the end of the period of one year beginning with the date of completion of the part of the authorised development specified in relation to that land in Schedule 12 (land of which temporary possession may be taken).

(4) The undertaker may remain in possession of the temporary laydown area for up to two years from the date of completion of the authorised development.

(5) Before giving up possession of land of which temporary possession has been taken under this article, the undertaker must remove all temporary works and restore the relevant land to—

- (a) the reasonable satisfaction of the owners of the land;
- (b) in accordance with the design code principles; and
- (c) to a condition no worse than the relevant land was in before temporary possession of the relevant land was taken pursuant to this article,

but the undertaker is not required to replace a building removed under this article.

(6) The undertaker must produce a written record of the condition of the relevant land prior to taking possession (such record to be agreed by the owner);

(7) The undertaker must pay compensation to the owners and occupiers of land of which temporary possession is taken under this article for any loss or damage arising from the exercise in relation to the land of the provisions of any power conferred by this article.

(8) Any dispute as to a person's entitlement to compensation under paragraph (7), or as to the amount of the compensation, must be determined under Part 1 of the 1961 Act.

(9) Nothing in this article affects any liability to pay compensation under section 10(2) of the 1965 Act (further provisions as to compensation for injurious affection) or under any other enactment in respect of loss or damage arising from the carrying out of the authorised development, other than loss or damage for which compensation is payable under paragraph (7).

(10) The undertaker may not compulsorily acquire under this Order the land referred to in paragraph (1) except that the undertaker is not precluded from acquiring new rights over any part of that land under article 23 (compulsory acquisition of rights).

(11) Where the undertaker takes possession of land under this article, the undertaker is not required to acquire the land or any interest in it.

(12) Section 13 of the 1965 Act (refusal to give possession to acquiring authority) applies to the temporary use of land under this article to the same extent as it applies to the compulsory acquisition of land under this Order by virtue of section 125 of the 2008 Act (application of compulsory acquisition provisions).

Temporary use of land for maintaining authorised development

28.—(1) At any time during the maintenance period relating to any part of the authorised development, the undertaker may—

- (a) enter on and take temporary possession of any land within the Order limits if such possession is reasonably required for the purpose of maintaining the authorised development;
- (b) enter on and take temporary possession of the land hatched in black on plan number C_0018 Rev 00 for the purpose of keeping that land clean and tidy at any time during the maintenance period; and
- (c) construct such temporary works (including the provision of means of access) and buildings on the land as may be reasonably necessary for that purpose.

(2) The undertaker must serve notice on the owners and occupiers of the land at least 14 days before entering on and taking temporary possession of the land under this article. The requirement to serve at least 14 days' notice does not apply where the undertaker has identified a potential risk to the safety of—

- (a) the authorised development or any of its parts;
- (b) the public; or
- (c) the surrounding environment,

and the undertaker may enter the land under paragraph (1) subject to giving such period of notice (if any) as is reasonably practicable in all the circumstances.

(3) The undertaker may only remain in possession of land under this article for so long as may be reasonably necessary to carry out the maintenance of the part of the authorised development for which possession of the land was taken.

(4) Before giving up possession of land of which temporary possession has been taken under this article, the undertaker must remove all temporary works and restore the land to the reasonable satisfaction of the owners of the land.

(5) The undertaker must pay compensation to the owners and occupiers of land of which temporary possession is taken under this article for any loss or damage arising from the exercise in relation to the land of the provisions of this article.

(6) Any dispute as to a person's entitlement to compensation under paragraph (5), or as to the amount of the compensation, must be determined under Part 1 of the 1961 Act.

(7) Nothing in this article affects any liability to pay compensation under section 10(2) of the 1965 Act (further provisions as to compensation for injurious affection) or under any other enactment in respect of loss or damage arising from the maintenance of the authorised development, other than loss or damage for which compensation is payable under paragraph (5).

(8) Where the undertaker takes possession of land under this article, the undertaker is not required to acquire the land or any interest in it.

(9) Section 13 of the 1965 Act (refusal to give possession to acquiring authority) applies to the temporary use of land under this article to the same extent as it applies to the compulsory acquisition of land under this Order by virtue of section 125 of the 2008 Act (application of compulsory acquisition provisions).

(10) In this article, "the maintenance period", in relation to any part of the authorised development with the exception of the development described in paragraph (11), means the period of 5 years beginning with the date on which that part of the authorised development is first opened for use.

(11) In this article, "the maintenance period" in relation to—

- (a) the operational site;
- (b) landscaping over plots 15, 17, 21, 22, 23, 24, 25, 26, 27, 28, 29 and 32 shown on the land plans;

- (c) Lee Park Way (including plot number 14, which is the bridge over the River Lee Navigation); and
- (d) the land immediately to the east of Deephams Farm Road as shown hatched in black on plan number C_0018 Rev 00,

means the lifetime of the authorised development beginning with the date on which those parts of the authorised development are first opened for use.

Statutory undertakers

29. Subject to Schedule 13 (protective provisions), the undertaker may—

(1) acquire compulsorily land belonging to statutory undertakers within the Order limits as described in the book of reference;

(2) suspend or extinguish the rights of statutory undertakers within the Order limits as described in the book of reference and remove or reposition the apparatus belonging to statutory undertakers within the Order limits; and

(3) acquire compulsorily new rights over land belonging to statutory undertakers within the Order limits as described in the book of reference.

Recovery of costs of new connections

30.—(1) Where any apparatus of a public utility undertaker or of a public communications provider is removed under paragraph (1) of article 21 (power to override easements and other rights) or paragraph (1) of article 23 (compulsory acquisition of rights) any person who is the owner or occupier of premises to which a supply was given from that apparatus is entitled to recover from the undertaker compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of effecting a connection between the premises and any other apparatus from which a supply is given.

(2) Paragraph (1) does not apply in the case of the removal of a public sewer but where such a sewer is removed under paragraph (1) of article 21 (power to override easements and other rights) or paragraph (1) of article 23 (compulsory acquisition of rights), any person who is—

- (a) the owner or occupier of premises the drains of which communicated with that sewer; or
- (b) the owner of a private sewer which communicated with that sewer,

is entitled to recover from the undertaker compensation in respect of expenditure reasonably incurred by that person, in consequence of the removal, for the purpose of making the drain or sewer belonging to that person communicate with any other public sewer or with a private sewerage disposal plant.

(3) This article does not have effect in relation to apparatus to which Part 3 of the 1991 Act applies.

(4) In this article—

- (a) “public communications provider” has the same meaning as in section 151(1) of the Communications Act 2003^(a); and
- (b) “public utility undertaker” has the same meaning as in the 1980 Act.

Application of landlord and tenant law

31.—(1) This article applies to—

- (a) any agreement for leasing to any person the whole or any part of the authorised development or the right to operate the same; and

(a) 2003 (c.21). There are other amendments to this Act that are not relevant to this Order.

- (b) any agreement entered into by the undertaker with any person for the construction, maintenance, use or operation of the authorised development, or any part of it, so far as any such agreement relates to the terms on which any land which is the subject of a lease granted by or under that agreement is to be provided for that person's use.

(2) No enactment or rule of law regulating the rights and obligations of landlords and tenants will prejudice the operation of any agreement to which this article applies.

(3) Accordingly, no such enactment or rule of law will apply in relation to the rights and obligations of the parties to any lease granted by or under any such agreement so as to—

- (a) exclude or in any respect modify any of the rights and obligations of those parties under the terms of the lease, whether with respect to the termination of the tenancy or any other matter;
- (b) confer or impose on any such party any right or obligation arising out of or connected with anything done or omitted on or in relation to land which is the subject of the lease, in addition to any such right or obligation provided for by the terms of the lease; or
- (c) restrict the enforcement (whether by action for damages or otherwise) by any party to the lease of any obligation of any other party under the lease.

Operational land for purposes of the 1990 Act

32. Development consent granted by this Order is to be treated as specific planning permission for the purposes of section 264(3)(a) of the 1990 Act (cases in which land is to be treated as operational land for the purposes of that Act).

Felling or lopping of trees

33.—(1) The undertaker may fell or lop any tree or shrub near any part of the authorised development, or cut back its roots, if it reasonably believes it to be necessary to do so to prevent the tree or shrub from—

- (a) obstructing or interfering with the construction, maintenance or operation of the authorised development or any apparatus used in connection with the authorised development; or
- (b) constituting a danger to persons using the authorised development.

(2) In carrying out any activity authorised by paragraph (1), the undertaker must not do unnecessary damage to any tree or shrub and must pay compensation to any person for any loss or damage arising from such activity.

(3) Any dispute as to a person's entitlement to compensation under paragraph (2), or as to the amount of compensation, will be determined under Part 1 of the 1961 Act.

Certification of documents and plans

34.—(1) The undertaker must, as soon as practicable after the making of this Order, submit to the Secretary of State copies of—

- (a) the works plans;
- (b) the land plans;
- (c) the book of reference;
- (d) the environmental statement;
- (e) the environmental commitments and mitigation schedule;
- (f) the code of construction practice;
- (g) the design code principles; and
- (h) the DCO schedule 6-8 explanatory diagrams,

for certification that they are true copies of the documents referred to in this Order.

(2) A plan or document so certified will be admissible in any proceedings as evidence of the contents of the document of which it is a copy.

Arbitration

35. Any difference or dispute under any provision of this Order (other than a difference or dispute that falls to be determined by the tribunal) must, unless otherwise provided for in this Order or unless otherwise agreed between the parties, be referred to and settled by a single arbitrator to be agreed between the parties or, failing agreement, to be appointed on the application of either party (after giving notice in writing to the other) by the President of the Institution of Civil Engineers.

No double recovery

36. Compensation is not payable in respect of the same matter both under this Order and under any other enactment, any contract or any rule of law.

Protective provisions for specified undertakers

37. Schedule 13 (protective provisions) has effect.

Approvals, consents and appeals

38.—(1) Save as provided otherwise by this Order, Schedule 3 (Procedure for approvals, consents and appeals) has effect in relation to all consents, agreements, approvals or notices granted, refused or withheld in relation to—

- (a) the requirements set out in Schedule 2 (requirements);
- (b) any document referred to in any requirement set out in Schedule 2 (requirements);
- (c) the functions of the local authority set out in sections 60 and 61 of the Control of Pollution Act 1974(a); and
- (d) any article of this Order.

(2) Save as provided otherwise under this Order, paragraphs 1, 2 and 3 of Schedule 3 (Procedure for approvals, consents and appeals) have effect in relation to all applications and requests for consents, agreements and approvals made under any article or requirement of this Order.

(3) If within 56 days (unless another period is provided for under this Order) after the application or request required or contemplated by any article or requirement of this Order has been submitted to the discharging authority or the owner, and the discharging authority or the owner (as the case may be) has not notified the undertaker of its disapproval and the grounds of disapproval, the discharging authority or the owner (as the case may be) will (unless the parties have agreed otherwise) be deemed to have approved the application or request.

(4) Where an application is made to or request is made of the relevant planning authority, a highway authority, a street authority or the owner of a watercourse, sewer or drain, for any consent, agreement, approval or notice required or contemplated by any article or requirement of this Order, such consent, agreement or approval must, if given, be given in writing and must not be unreasonably withheld or delayed.

(5) Where any article or requirement of this Order provides that the authorised development is to be carried out in accordance with a document or details approved by the discharging authority pursuant to this Order, the document or approved details is to be taken to include any amendment or revision that may subsequently be approved or agreed by the discharging authority, or other consent, agreement or approval of the discharging authority.

(a) 1974 (c.40) Section 61 has been amended by the Building (Scotland) Act 2008; section 58 of the Building Act 1984 (c.55); Schedule 24 of the Environmental Act 1995 (c.25); section 162(i) of, and paragraph 15 of Schedule 15 to, the Environmental Protection Act 1990 (c.43).

(6) Where an approval, agreement or consent is required under the terms of any article or requirement in this Order or by the code of construction practice (unless this Order or the code of construction practice requires that a consent be obtained pursuant to section 61 of the Control of Pollution Act 1974), the discharging authority must, in addition to any named consultee in the relevant provision, consult all other relevant and appropriate statutory consultees in accordance with Schedule 3 (procedure for approvals, consents and appeals) before deciding whether or not to approve, agree or consent.

SCHEDULE 1

Article 3

AUTHORISED DEVELOPMENT

1. A nationally significant infrastructure project as defined in sections 14 and 15 of Part 3 of the 2008 Act in the London Borough of Enfield comprising—

(1) *Works No. 1a* — the construction of an electricity and heat generating station located at the Edmonton EcoPark, fuelled by up to 700,000 tonnes of residual waste and with a capacity of more than 50 mega watts of electricity (MW_e) (gross), comprising the following buildings, structures and plant, located within the limits of deviation identified on Works Plan C_0002 Rev 01—

- (i) a main building housing:
 - (a) a tipping hall;
 - (b) waste bunker and waste handling equipment;
 - (c) two process lines (with each line having a capacity of up to 350,000 tonnes of waste per annum), consisting of a moving grate, furnace, boiler and a flue gas treatment plant;
 - (d) facilities for the recovery of incinerator bottom ash and air pollution control residue;
 - (e) steam turbine(s) for electricity generation including equipment for heat off-take; and
 - (f) control room containing the operational and environmental control and monitoring systems, and offices;
- (ii) entry and exit ramps to the electricity and heat generating station;
- (iii) a stack containing flues for flue gas exhaust;
- (iv) cooling equipment; and
- (v) an observation platform enclosure.

2. Associated development within the meaning of section 115(2) of the 2008 Act in connection with the nationally significant infrastructure project referred to in Works No.1a as follows:

- (a) *Works No. 1b* – works required to provide buildings, structures, plant and equipment needed for the operation of the electricity and heat generating station located within the limits of deviation identified on Works Plan C_0002 Rev 00 and as follows—
 - (i) wastewater treatment facility;
 - (ii) a water pre-treatment plant;
 - (iii) external stores and workshops;
 - (iv) a fuelling area and fuel storage, vehicle wash, transport offices and staff facilities, toilets, natural gas intake and management compound, and fire control water tank(s); and
 - (v) electrical substation(s).

- (b) *Works No. 2* – the construction of a resource recovery facility comprising the following building, structures and plant located within the limits of deviation identified on Works Plan C_0004 Rev 01 and as follows—
 - (i) a recycling and fuel preparation facility;
 - (ii) a reuse and recycling centre;
 - (iii) offices, and staff and visitor welfare facilities;
 - (iv) odour abatement and dust suppression plant and equipment; and
 - (v) fire control water tank(s) and pump house and equipment.
- (c) *Works No. 3* — the construction of a building to provide visitor, community and education facilities, office accommodation and a boat canopy located within the limits of deviation identified on Works Plan C_0006 Rev 01.
- (d) *Works No. 4* – utilities and infrastructure work, landscaping, access, security and lighting, and weighbridges located within the limits of deviation identified on Works Plan C_0008 Rev 01 and as follows—
 - (i) with regard to the following:
 - (a) potable water;
 - (b) waste water;
 - (c) surface water;
 - (d) foul water;
 - (e) raw water;
 - (f) electricity;
 - (g) gas; and
 - (h) cctv, telecoms and data—
 - (aa) the diversion, repositioning, decommissioning, removal, replacement, modification or upgrading of existing pipes, cables, systems and associated apparatus;
 - (bb) the laying or installation of new pipes, cables, systems and associated apparatus; and
 - (cc) the creation of connections to existing or new pipes, cables, systems and associated apparatus;
 - (ii) the erection of a raw water pumping station;
 - (iii) stabilisation works to the eastern bank of Salmon’s Brook;
 - (iv) the construction of surface water pumps, pipework and attenuation tanks;
 - (v) landscaping works;
 - (vi) the installation of areas of green roof and/or brown roof;
 - (vii) the widening of the existing entrance into the Edmonton EcoPark from Advent Way, including modification or replacement of the bridge over Enfield Ditch;
 - (viii) construction within the Edmonton EcoPark of vehicle and cycle parking, vehicle, cycle and pedestrian routes, and weighbridges;
 - (ix) construction of an access into the Edmonton EcoPark from Lee Park Way, including bridging over Enfield Ditch;
 - (x) improvements to Lee Park Way including vehicle barriers and the creation of segregated pedestrian and cycle paths or the repositioning of existing pedestrian and cycle paths;
 - (xi) improvements to Deephams Farm Road (including improvements to the existing access into Deephams Farm Road from Ardra Road) and the use of Deephams Farm Road as an access to and from the Edmonton EcoPark;

- (xii) the resurfacing of Ardra Road (if required);
 - (xiii) security, fencing, and lighting works and equipment;
 - (xiv) the erection of security facilities and equipment and gatehouses within the operational site at access points from Advent Way, Ardra Road, and Lee Park Way;
 - (xv) the upgrade and maintenance of the existing bridge over the River Lee Navigation;
 - (xvi) the installation of photovoltaic panels at roof level of the electricity and heat generating station and the resource recovery facility;
 - (xvii) the modification of kerb lines and pavements within plots 28 and 29;
 - (xviii) the creation of a new footpath within plot 21;
 - (xix) the improvement of the existing junction between Meridian Way and Ardra Road;
 - (xx) the improvement of the existing junction between Walthamstow Avenue and Lower Hall Lane; and
 - (xxi) the improvement of the existing junction between Advent Way and Lee Park Way
- (e) *Works No. 5* – works for the creation of the temporary laydown area and its temporary use located within the limits of deviation identified on Works Plan C_0009 Rev 01 and as follows:
- (i) areas of hardstanding;
 - (ii) the erection of fencing, hoarding or any other means of enclosure;
 - (iii) the erection of security facilities and equipment and gatehouses;
 - (iv) vehicle parking;
 - (v) office and staff welfare accommodation;
 - (vi) storage, fabrication, laydown area;
 - (vii) foul water storage and pumps and surface water attenuation storage and pumps;
 - (viii) utility works including electricity, water, cctv, telecoms and data;
 - (ix) the creation of vehicular, cycle and pedestrian access from Lee Park Way to the temporary laydown area; and
 - (x) restoration of the temporary laydown area.
- (f) *Works No. 6* – site preparation and demolition works within the area located within the limits of deviation identified on Works Plan C_0010 Rev 01 comprising—
- (i) demolition of existing buildings, structures and plant excluding demolition of the energy from waste facility;
 - (ii) construction of a temporary ash storage building;
 - (iii) realignment of the exit ramp from the energy from waste facility; and
 - (iv) works to prepare the land shown on works plan C_0010 Rev 01 for the construction of works numbers 1a, 1b, 2, 3, 4 and 5;
- (g) *Works No. 7* – decommissioning, demolition and removal of the energy from waste facility and demolition and removal of—
- (i) the existing stack;
 - (ii) demolition of the existing water pumping station on Ardra Road; and
 - (iii) making good,
- located within the limits of deviation identified on Works Plan C_0011 Rev 01.

3. In connection with Works No. 1 to Works No. 7 (inclusive), to the extent that they do not otherwise form part of any such work, being associated development within the meaning of section 115(2) of the 2008 Act, the enabling works and such other works as may be necessary or expedient for the purposes of or in connection with the construction, operation and maintenance of the authorised development which do not give rise to any new significant adverse environmental effects that were not assessed in the environmental statement.

SCHEDULE 2 REQUIREMENTS

Article 3

Interpretation

1.—(1) Where an approval is required under the terms of any requirement or where compliance with a document referred to in a requirement is required and that requirement or document contains the wording “unless otherwise approved” or “unless otherwise agreed” by the discharging authority, such approval or agreement by the discharging authority is not to be given except in relation to minor or immaterial changes or deviations where it has been demonstrated to the satisfaction of the discharging authority that the subject-matter of the approval or agreement sought is unlikely to give rise to any new significant adverse environmental effects that were not assessed in the environmental statement.

(2) Subject to paragraph (1), where any requirement refers to a document or plan, that document or plan is to be taken as the version certified by the Secretary of State under the provisions of this Order or to any subsequent version of that document or plan approved or agreed by the discharging authority under a requirement of this schedule.

(3) In this schedule—

“controlled waste” has the meaning given in section 75(4) Environmental Protection Act 1990; and

“hazardous waste” has the meaning given in section 75(8A) Environmental Protection Act 1990.

Time limits

2. The authorised development must not be commenced after the expiration of 5 years from the date this Order comes into force.

Stages of the authorised development

3. No authorised development is to commence until a written scheme setting out all the stages of construction of the authorised development has been submitted to and approved by the relevant planning authority. Nothing in this requirement prevents the undertaker from submitting further written schemes revising the approved stages of development for the approval of the relevant planning authority.

Detailed design approval

4.—(1) No stage is to be commenced until, for that stage plans and written details of (where relevant) the external appearance of all new buildings and structures (including details of the colour, materials and samples); piling risk assessments and piling method statements (both of which must include lateral and vertical limits of deviation for piling, such limits to not exceed those lines or situations shown on the works plans) relating to the electricity and heat generating station (Works No. 1a), the resource and recovery facility (Works No. 2) and Works No. 3; vehicular and pedestrian access; parking and circulation areas and hard surfacing materials; wayfinding signage outside the operational site; and external operational lighting and cctv on the boundary of the operational site, have been submitted to and approved in writing by the relevant planning authority. The relevant planning authority must consult with the Environment Agency in reaching its decision with respect to the piling risk assessments and piling method statements. The approval of the relevant planning authority of the piling risk assessments and piling method statements may only be given where the approved investigation and assessment report (submitted pursuant to requirement 14(2)) has concluded there is no unacceptable risk to groundwater in the relevant part of the Order land.

(2) The details submitted under sub-paragraph (1) must be in accordance with the design code principles.

(3) The authorised development must be carried out in accordance with the details approved under sub-paragraph (1) unless otherwise approved by the relevant planning authority.

Parameters

5. The authorised development must be constructed within with the following parameters—

(1) Works 1a (Drawing C_0003 Rev 01)—

<i>Description</i>	<i>Work</i>	<i>Length (m)</i>	<i>Width (m)</i>	<i>Height (m)</i>	<i>Height (m AOD)</i>

Environmental commitments and mitigation schedule

6. The authorised development must be implemented in accordance with the measures set out in the environmental commitments and mitigation schedule.

Type of waste to be managed

7. The waste permitted to be managed at the authorised development must be limited to 890,000 tonnes per annum and be limited to—

- (1) the management of—
 - (a) local authority collected waste;

- (b) other controlled waste;
 - (c) any materials derived from the waste referred to at (a) and (b) above; and
- (2) the management of hazardous waste delivered to the operational site.

Notices

8. Notice of the following events must be given to the relevant planning authority where practicable prior to the date on which the relevant event is intended to first occur and in any event within 7 days of the first occurrence of such event—

- (1) the commencement of the authorised development;
- (2) the issue of the certificate of practical completion for the electricity and heat generating station; and
- (3) the commencement of the full operation of the electricity and heat generating station (following the completion of any period of testing and commissioning).

BREEAM Rating

9.—(1) No stage is to be commenced until, in relation to any new buildings within that stage (excluding temporary structures and temporary buildings)—

- (a) a pre-construction stage consultation with the Building Research Establishment (BRE) (in accordance with the BRE's requirements for such construction) has been carried out; and
- (b) proposals identifying the range of options to achieve the British Research Establishment Environmental Assessment Methodology (BREEAM) rating of no less than “very good” have been submitted to and approved in writing by the relevant planning authority.

(2) The relevant stage must be carried out in accordance with the details approved under requirement 9(1).

Provision of landscaping

10.—(1) No development within any stage, other than the restoration of the temporary laydown area, is to commence until a landscaping scheme for that stage has been submitted to and approved by the relevant planning authority. The landscaping scheme submitted for approval must be in accordance with the design code principles, the environmental commitments and mitigation schedule and include details of all proposed hard and soft landscaping works in the relevant stage including—

- (a) location, number, species, size and planting density of any proposed planting;
- (b) cultivation, importing of materials and other operations to ensure plant establishment;
- (c) permanent boundary fencing or other means of permanent enclosure;
- (d) expected finished ground levels;
- (e) any trees proposed to be retained, with measures for their protection during the construction period of the relevant stages; and
- (f) implementation timetable.

(2) The authorised development must be carried out in accordance with the details approved under sub-paragraph (1) above and to a reasonable standard in accordance with the relevant recommendations of appropriate British Standards, and in all cases must comply with the measures set out in the environmental commitments and mitigation schedule.

Maintenance of landscaping

11. Any tree or shrub planted as part of an approved landscaping scheme that, within a period of 5 years after planting, is removed, dies or becomes, in the reasonable opinion of the relevant

planning authority seriously damaged or diseased, must be replaced in the first available planting season with a specimen of the same species and size as that originally planted.

Access and Roads

12.—(1) No stage is to commence until written details in relation to that stage of—

- (a) the design, layout and management of any relevant new permanent or temporary means of access from the Order land to a public highway to be used by vehicular traffic; or
- (b) any alteration to an existing means of access to a public highway used by vehicular traffic; and
- (c) the taking of any necessary traffic management and control measures,

have been submitted to and approved by the relevant planning authority.

(2) The accesses must be constructed in accordance with the approved details.

(3) The construction or alteration of the street or the taking of traffic management and control measures must be carried out in accordance with the approved details.

Operational Surface and Foul Water Drainage

13.—(1) No stage is to commence until written details of the operational surface and foul water drainage system (including means of pollution control) applicable to that stage have been submitted to and approved by the relevant planning authority in consultation with the relevant sewerage and drainage authority.

(2) The operational surface and foul water drainage system must be constructed in accordance with the approved details before the commencement of full operations of the electricity and heat generating station.

Contaminated land and groundwater

14.—(1) No stage may commence until a written scheme applicable to that stage to deal with any pre-existing contamination of land, including groundwater, within the Order limits which is likely to cause significant harm to persons or pollution of controlled waters or the environment has been submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The undertaker must consult the Environment Agency in relation to the details of the written scheme before submitting it to the relevant planning authority for approval.

(2) The scheme must include an investigation and assessment report, prepared by a specialist consultant to identify the extent of any contamination and the remedial measures to be taken to render the land fit for its intended purpose (such remedial measures to include details of the data and sampling to be collected to demonstrate that the remedial measures are complete). The submission of the investigation and assessment report must be accompanied by the submission of a management plan which sets out long-term measures with respect to any contaminants remaining on the Order land (such management plan to include details of and a timetable and targets for long-term monitoring of pollutant linkages, the provision of regular reports, any maintenance measures of groundwater monitoring boreholes and equipment deemed necessary and arrangements for any contingency action deemed necessary as a consequence of the monitoring results).

(3) Remediation must be carried out in accordance with the approved scheme.

(4) If during any stage of the authorised development contamination not previously identified by the investigation and assessment report is found to be present which is assessed by the undertaker as likely to cause significant harm to persons or likely to cause pollution of controlled waters or the environment, then unless otherwise agreed by the relevant planning authority, no further development or works may be carried out in that part of the Order land in which contamination is identified until a remediation strategy is submitted to and approved by the relevant planning authority in consultation with the Environment Agency. The authorised development shall be

carried out in accordance with the approved details, unless otherwise approved by the relevant planning authority.

(5) A verification report must be submitted to and approved by the relevant planning authority (in consultation with the Environment Agency) demonstrating compliance with the remedial measures set out in the approved scheme. The verification report must include results of the sampling required by the approved investigation and assessment report.

(6) A second verification report must be submitted to and approved by the relevant planning authority (in consultation with the Environment Agency) when all long term monitoring has been completed and contain the results of monitoring required by the approved management plan, details of any necessary contingency action required by the approved management plan that has been undertaken and confirmation that all long term remediation works have been carried out and that all long-term remedial targets have been met.

(7) The undertaker must consult the Environment Agency in relation to the details of the piling risk assessments and piling method statements required pursuant to requirement 4(1) before submitting them to the relevant planning authority for approval. The undertaker must implement the piling design based on the approved piling risk assessments and piling method statements. Lateral and vertical limits of deviation relating to piling depths approved as part of the piling risk assessments and piling method statements submitted pursuant to requirement 4 must also be followed.

Ecology

15.—(1) Full operation of the electricity and heat generating station must not occur until written details of the approach to monitoring and managing the landscaping and bird and bat boxes (in accordance with the environmental commitments and mitigation schedule) have been approved by the relevant planning authority.

(2) Following its first implementation, the approach approved under sub paragraph (1) will be monitored and maintained in accordance with the approved details.

Code of Construction Practice

16.—(1) The authorised development must be undertaken in accordance with the code of construction practice.

(2) Before commencing the enabling works or any stage of the authorised development, the undertaker must review the code of construction practice to establish whether it should be updated to reflect any new relevant construction methodology or environmental guidance and, where it is to be updated, the undertaker must seek the approval in writing of the relevant planning authority to any update of the code of construction practice.

Control of noise during operational stage

17.—(1) Full operation of the electricity and heat generating station must not commence until a written scheme for noise management, including monitoring and attenuation in relation to the authorised development and such written scheme to replicate the noise levels set out in any environmental permit relating to the authorised development, has been submitted to and approved by the relevant planning authority.

(2) The noise management scheme must be implemented and maintained as approved in accordance with sub-paragraph **Error! Reference source not found..**

Combined Heat and Power

18.—(1) Works No. 1A must be constructed so as to be CHP ready through the provision of steam and hot water pass-outs and the preservation of space for the future provision of water pressurisation, heating and pumping systems; and

(2) A corridor of land to contain heat pipes from the proposed electricity and heat generating station to the edge of the Edmonton EcoPark must be safeguarded, the location of which must be broadly in accordance with that identified on indicative drawing number D_0013 Rev 00 of the design code principles.

Transitional period

19.—(1) The energy from waste facility and the electricity and heat generating station must not operate at the same time for longer than 12 months, following which time the decommissioning and demolition of the energy from waste facility must be undertaken in accordance with the written scheme approved under requirement 20, and “transitional period” is to be construed accordingly.

(2) The amount of waste managed by the existing energy from waste facility on the Edmonton EcoPark or the electricity and heat generating station, or both during the transitional period must be no more than 700,000 tonnes per annum in aggregate.

Decommissioning and demolition of the energy from waste facility

20.—(1) None of the works described in Works No. 7 of Schedule 1 (authorised development) are to be commenced until a written scheme for such works described in Works No. 7 of Schedule 1 has been submitted to and approved by the relevant planning authority in consultation with the Environment Agency.

(2) The written scheme referred to in paragraph (1) must include details of the methods and timing for the decommissioning, demolition and removal of the energy from waste facility.

Decommissioning and demolition of the proposed electricity and heat generating station

21.—(1) Within 24 months of the electricity and heat generating station ceasing to be used for waste management purposes, a plan for the decommissioning, demolition and removal of the electricity and heat generating station must be submitted to the relevant planning authority for approval.

(2) Subject to obtaining the necessary consents and approvals, the decommissioning, demolition and removal of the electricity and heat generating station must be implemented in accordance with the approved plan.

(3) On the one year anniversary of the operational site ceasing to be used for waste management purposes the undertaker must notify the relevant planning authority of the same.

PROCEDURE FOR APPROVALS, CONSENTS AND APPEALS

Applications made for approvals and consents required by this Order

1.—(1) If an application has been made to a discharging authority for any consent, agreement or approval required by an article or requirement of this Order, then the discharging authority must give notice to the undertaker of its decision on the application within a period of 56 days beginning with the working day immediately following that on which the application is received by the discharging authority.

(2) In determining any application under this paragraph the discharging authority may either grant or refuse consent.

(3) Where the discharging authority intends to refuse an application, it must notify the undertaker of its intention to refuse as soon as such intention arises within the 56-day decision making period referred to in paragraph (1).

(4) Where consent is refused the discharging authority must provide its reasons for the refusal with the notice of refusal.

Further information

2.—(1) In relation to any application for a consent, agreement or approval in respect of an article or requirement of this Order, the discharging authority may request such further information from the undertaker as is necessary to enable it to consider the application.

(2) Any request by the discharging authority for further information under paragraph (1) must be made in writing within 7 days of receipt of the application and must specify the further information required.

(3) Where an article or requirement of this Order specifies that consultation with an approval consultee or any other relevant or appropriate statutory consultee is required, the discharging authority must issue the consultation to the approval consultee and any relevant or appropriate statutory consultee within 3 business days of receipt of the application, and must notify the undertaker in writing specifying any further information requested by those consultees within 1 business day of receipt of such a request and in any event within 14 days of receipt of the application.

(4) In the event that the discharging authority does not give such notification within this 7 day period as referred to in paragraph (2) it will be deemed to have sufficient information to consider the application and may not after that period request further information without the prior agreement of the undertaker.

Fees further to requirements

3.—(1) Where an application is made to the discharging authority for written consent, agreement or approval in respect of a requirement, a fee must be paid to that authority as follows—

(a) fees must be calculated in accordance with the following table—

<i>Category 1</i>	<i>Category 2</i>
Subject to the cap stated below, the erection of buildings— where no floor space is to be created by the development, £195;	The carrying out of any operations not coming within Category 1, £195 for each 0.1 hectare of the site area, subject to a maximum £1,690

where the area of gross floor space to be created by the development does not exceed 40 square metres, £195;

where the area of the gross floor space to be created by the development exceeds 40 square metres, but does not exceed 75 square metres, £385;

where the area of the gross floor space to be created by the development exceeds 75 square metres, but does not exceed 3750 square metres, £385 for each 75 square metres of that area; and

where the area of gross floor space to be created by the development exceeds 3750 square metres, £19,449; and an additional £115 for each 75 square metres.

Total Cap: £100,000.

(b) where an application is made for discharge of a requirement (“current application”) in respect of which an application has been made previously, the fee payable in respect of the current application must be £385.

(2) For the purpose of the calculation of fees under sub-paragraph (1)(a)—

- (a) the area is to be taken as consisting of the area of land or floorspace (as the case may be) to which the application relates;
- (b) where the application relates to development within Category 1, the area of gross floor space created by the development is to be ascertained by external measurement of the floor space, whether or not it is bounded (wholly or partly) by external walls of a building;
- (c) where the application relates to development within Category 1 and the gross floor space to be created by the development exceeds 75 square metres and is not an exact multiple of 75 square metres, the area remaining after division of the total number of square metres of gross floorspace by the figure of 75 is to be treated as being 75 metres; and
- (d) where the application relates to development within Category 2 and the site area exceeds 0.1 hectares and is not an exact multiple of 0.1 hectares, the area remaining after division of the total number of hectares by the figure of 0.1 hectares is to be treated as being 0.1 hectares.

Appeals

4.—(1) Save as otherwise provided in this Order, the undertaker may appeal in the event that—

- (a) the discharging authority refuses an application for any consent, agreement or approval required or permitted by—
 - (i) a requirement included in this Order; or
 - (ii) a document referred to in any requirement included in this Order (unless such consent, agreement or approval has to be obtained by virtue of any other legal requirement); or
 - (iii) any other provision of this Order;
- (b) the discharging authority grants an application for any consent, agreement or approval required or permitted by this Order subject to conditions;

- (c) the discharging authority issues a notice further to sections 60 and or 61 of the Control of Pollution Act 1974(a);
- (d) on receipt of a request for further information under paragraph 2 of this Schedule, the undertaker considers that either the whole or part of the specified information requested by the discharging authority is not necessary for consideration of the application; or
- (e) on receipt of any further information requested, the discharging authority notifies the undertaker that the information provided is inadequate and requests additional information which the undertaker considers is not necessary for consideration of the application.

(2) The appeal process is as follows—

- (a) any appeal by the undertaker must be made within 42 days of the date of the notice of the decision or determination giving rise to the appeal as referred to in sub-paragraph (1);
- (b) the undertaker must submit the appeal documentation to the Secretary of State and must on the same day provide copies of the appeal documentation to the discharging authority and any requirement consultee and must on the same date affix a notice to a conspicuous object or objects on or near the site of the works which are the subject of such appeal which must give details of the decision of the discharging authority and of the application and notice that an appeal has been made together with the address within the locality where appeal documents may be inspected;
- (c) as soon as is practicable after receiving the appeal documentation, the Secretary of State must appoint a person to consider the appeal (“the appointed person”) and must notify the appeal parties of the identity of the appointed person and the address to which all correspondence for their attention should be sent;
- (d) the discharging authority and any requirement consultee (if applicable) must submit their written representations together with any other representations received by them under the notice of application referred to in sub-paragraph (a) or the notice of appeal referred to in sub-paragraph 1(1) to the appointed person in respect of the appeal within 10 business days of the start date and must ensure that copies of their written representations and any other representations as sent to the appointed person are sent to each other and to the undertaker on the day on which they are submitted to the appointed person;
- (e) the appeal parties must make any counter-submissions to the appointed person within 10 business days of receipt of written representations pursuant to sub-paragraph (c) above; and
- (f) the appointed person must make a decision and notify it to the appeal parties, with reasons, as soon as reasonably practicable.

(3) The appointment of the person under sub-paragraph (2)(c) may be undertaken by a person appointed by the Secretary of State for this purpose instead of by the Secretary of State.

(4) In the event that the appointed person considers that further information is necessary to enable the appointed person to consider the appeal they must as soon as practicable notify the appeal parties in writing specifying the further information required, the appeal party from whom the information is sought, and the date by which the information is to be submitted.

(5) Any further information required under sub-paragraph (4) must be provided by the party from whom the information is sought to the appointed person and to other appeal parties by the date specified by the appointed person. The appointed person must notify the appeal parties of the revised timetable for the appeal on or before that day. The revised timetable for the appeal must require submission of written representations to the appointed person within 10 business days of

(a) 1974 (c.40). Section 61 has been amended by the Building (Scotland) Act 2008; section 58 of the Building Act 1984 (c.55); Schedule 24 of the Environment Act 1995 (c.25); and section 162(1) of, and paragraph 15 of Schedule 15 to, the Environmental Protection Act 1990 (c.25).

the agreed date but must otherwise be in accordance with the process and time limits set out in sub-paragraph (2)(c)-(e).

- (6) On an appeal under this paragraph, the appointed person may—
- (a) allow or dismiss the appeal, or
 - (b) reverse or vary any part of the decision of the discharging authority (whether the appeal relates to that part of it or not),

and may deal with the application as if it had been made to him in the first instance.

(7) The appointed person may proceed to a decision on an appeal taking into account such written representations as have been sent within the relevant time limits and in its sole discretion such written representations as have been sent out with the relevant time limits.

(8) The appointed person may proceed to a decision even though no written representations have been made within the relevant time limits, if it appears to him that there is sufficient material to enable a decision to be made on the merits of the case.

(9) The decision of the appointed person on an appeal is final and binding on the parties, and a court may entertain proceedings for questioning the decision only if the proceedings are brought by a claim for judicial review.

(10) If an approval is given by the appointed person under this Schedule, it is to be treated as an approval for the purpose of Schedule 2 (requirements) of this Order as if it had been given by the discharging authority. The discharging authority must confirm any determination given by the appointed person in identical form in writing but a failure to give such confirmation (or a failure to give it in identical form) is not to be taken to affect or invalidate the effect of the appointed person's determination.

(11) Save where a direction is given under sub-paragraph (12) requiring the costs of the appointed person to be paid by the discharging authority, the reasonable costs of the appointed person must be met by the undertaker.

(12) On application by the discharging authority or the undertaker, the appointed person may give directions as to the costs of the appeal parties and as to the parties by whom the costs of the appeal are to be paid. In considering whether to make any such direction and the terms on which it is to be made, the appointed person must have regard to Communities and Local Government Circular 03/2009 or any circular or guidance which may from time to time replace it.

SCHEDULE 11

Article 23

MODIFICATION OF COMPENSATION AND COMPULSORY PURCHASE ENACTMENTS FOR CREATION OF NEW RIGHTS

Compensation enactments

1. The enactments for the time being in force with respect to compensation for the compulsory purchase of land apply, with the necessary modifications as to compensation, in the case of a compulsory acquisition under this Order of a right by the creation of a new right, as they apply as respects compensation on the compulsory purchase of land and interests in land.

2.—(1) Without limiting paragraph 1, the Land Compensation Act 1973^(a) has effect subject to the modifications set out in sub-paragraph (2).

(2) In section 44(1) (compensation for injurious affection), as it applies to compensation for injurious affection under section 7 of the 1965 Act—

- (a) the words “land is acquired or taken” are substituted with the words “a right over land is purchased”; and
- (b) the words “acquired or taken from him” are substituted with the words “over which the right is exercisable”.

Application of 1965 Act

3.—(1) The 1965 Act has effect with the modifications necessary to make it apply to the compulsory acquisition under this Order of a right by the creation of a new right, as it applies to the compulsory acquisition under this Order of land, so that, in appropriate contexts, references in that Act to land are to be read (according to the requirements of the particular context) as referring to, or as including references to—

- (a) the right acquired or to be acquired; or
- (b) the land over which the right is or is to be exercisable.

(2) Without limiting sub-paragraph (1), Part 1 of the 1965 Act applies to the compulsory acquisition under this Order of a right by the creation of a new right with the modifications specified in the following provisions of this Schedule.

4. Section 11 of the 1965 Act (powers of entry) is modified so as to secure that, as from the date on which the acquiring authority has served notice to treat in respect of any new right, it has power, exercisable in equivalent circumstances and subject to equivalent conditions, to enter for the purpose of exercising that right or (which is deemed for this purpose to have been created on the date of service of the notice).

5. Sections 12 (penalty for unauthorised entry) and 13 (entry on warrant in the event of obstruction) of the 1965 Act are modified correspondingly.

(a) 1973 (c. 26). Section 44 was amended by paragraph 13(b) of Schedule 24 to the Highways Act 1980, paragraph 14(d) of Schedule 7 to the Gas Act 1986 (c.44) and paragraph 23 of Schedule 1 to the Water Consolidation (Consequential Provisions) Act 1991 (c.60).

<i>(1) Number of land shown on land plans</i>	<i>(2) Purpose for which temporary possession may be taken</i>	<i>(3) Works No. and plan number</i>
11 and 12.	To temporarily place equipment in these plots (which are part of the River Lee Navigation).	Work No. 3. C_0006 Rev 01.
16, 17, 18, 19 and 20.	To maintain the boat canopy that forms part of Works number 3. To create and use a temporary laydown area. To use as an access to the temporary laydown area from Walthamstow Avenue. To carry out restoration works to restore the current landscaping in the area used for the temporary laydown area.	Work Nos. 5 and 6. C_0009 Rev 01 and C_0010 Rev 01.

SCHEDULE 13

Article 37

PROTECTIVE PROVISIONS

PART 1

Protection for Operators of Electronic Communications Code Networks

1. The provisions of this Part have effect for the protection of the operators referred to in this Part, unless otherwise agreed in writing between the undertaker and the operator concerned.

2. In this Part—

“1991 Act” means the New Roads and Street Works Act 1991;

“2003 Act” means the Communications Act 2003;

“conduit system” has the same meaning as in the electronic communications code and references to providing a conduit system are to be construed in accordance with paragraph 1(3A) of that code;

“electronic communications apparatus” has the same meaning as in the electronic communications code;

“electronic communications code” has the same meaning as in Chapter 1 of Part 2 of the 2003 Act as defined in section 106(1) of the 2003 Act;

“electronic communications code network” means—

so much of an electronic communications network or conduit system provided by an electronic communications code operator as is not excluded from the application of the electronic communications code by a direction under section 106 of the 2003 Act; and

an electronic communications network that the Secretary of State is providing or proposing to provide;

“electronic communications code operator” means a person in whose case the electronic communications code is applied by a direction under section 106 of the 2003 Act; and

“operator” means the operator of an electronic communications code network.

3.—(1) Subject to sub-paragraphs (2) and (3), if, as the result of the authorised development or its construction, or of any subsidence resulting from any of those works—

(a) any damage is caused to any electronic communications apparatus belonging to an operator (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works, or other property of an operator); or

(b) there is any interruption in the supply of the service provided by an operator,

the undertaker must bear and pay the reasonable and proper cost actually incurred by the operator in making good such damage or restoring the supply as the case may be and must make proper and reasonable compensation to an operator for any other reasonable and proper expenses, loss, damages, penalty or costs actually incurred by it.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption as far as it is attributable to the act, neglect or default of an operator, its officers, servants, contractors or agents.

(3) The operator must give the undertaker reasonable prior written notice of any such claim or demand and no settlement or compromise may be made without the consent of the undertaker.

4.—(1) If in consequence of the exercise of the powers of this Order the access to the operator’s apparatus is materially obstructed, the undertaker shall provide such reasonable alternative means of access to such apparatus as will enable the operator to operate, maintain, repair or replace or use the apparatus.

(2) This Part does not apply to—

(a) any apparatus in respect of which the relations between the undertaker and an operator are regulated by the provisions of Part 3 of the 1991 Act; or

(b) any damage, or any interruption, caused by electro-magnetic interference arising from the construction or use of the authorised development.

5. Any difference or dispute arising between the operator and the undertaker under this Part of this Schedule shall, unless otherwise agreed in writing between the operator and the undertaker, be referred to and settled by arbitration under article 35 (arbitration).

6.—(1) Where, under this Part or anywhere else under this Order, the operator is required to give its consent or approval in respect of any matter, that consent or approval must not be unreasonably withheld or delayed.

(2) In respect of any specified work or the acquisition of rights under or over or use of the operator’s property, the operator must co-operate with the undertaker with a view to avoiding undue delay.

PART 2

Protection of Electricity, Gas, Water and Sewerage Undertakers

1. The provisions of this Part have effect for the protection of the statutory undertakers referred to in this Part, unless otherwise agreed in writing between the undertaker and the statutory undertaker concerned.

2. In this Part—

“1991 Act” means the New Roads and Street Works Act 1991;

“alternative apparatus” means alternative apparatus adequate to enable the statutory undertaker in question to fulfil its statutory functions in a manner not less efficient than previously;

“apparatus” means any apparatus within the works limits as follows—

- (a) in the case of a statutory undertaker within paragraph (a) of the definition, electric lines or electrical plant (as defined in section 64 of the Electricity Act 1989(a)), belonging to or maintained by the undertaker for the purposes of electricity supply;
- (b) in the case of a statutory undertaker within paragraph (b) of the definition, any gas mains, pipes or other apparatus belonging to or maintained by the undertaker for the purposes of gas supply;
- (c) in the case of a statutory undertaker within paragraph (c) of the definition, water mains, pipes or other apparatus belonging to or maintained by the undertaker for the purposes of water supply; and
- (d) in the case of a statutory undertaker within paragraph (d) of the definition—
 - (i) any drain or works vested in the statutory undertaker under the Water Industry Act 1991; and
 - (ii) any sewer which is so vested or is the subject of a notice of intention to adopt given under section 102(4) of that Act or an agreement to adopt made under section 104 of that Act,

and includes a sludge main, disposal main (within the meaning of section 219 of that Act) or sewer outfall and any manholes, ventilating shafts, pumps or other accessories forming part of any such sewer, drain or works, and in each case includes any structure in which apparatus is or is to be lodged or which gives or will give access to apparatus;

“functions” includes powers and duties;

“in”, in a context referring to apparatus or alternative apparatus in land, includes a reference to apparatus or alternative apparatus under, over or upon land;

“statutory undertaker” means—

- (a) any licence holder within the meaning of Part 1 of the Electricity Act 1989;
 - (b) a gas transporter within the meaning of Part 1 of the Gas Act 1986**(b)**;
 - (c) a water undertaker within the meaning of Schedule 1 of the Interpretation Act 1978**(a)**;
- and

-
- (a) (c.29). Section 6(1) has been amended by section 30 of the Utilities Act 2000 (c.27) and sections 136 and 197 of, and part 1 of Schedule 23 to, the Energy Act 2004 (c.20). Section 64 has been amended by article 24(c) of the Competition Act 1998 (Competition Commission) Transitional, Consequential and Supplemental Provisions Order 1999 (S.I. 1999/506), section 108 of, paragraphs 24 and 38 of part 2 of Schedule 6 to, and Schedule 8 to the Utilities Act 2000 (c.27), sections 44, 89, 102, 143, 147, 180 and 197 of, paragraphs 3 and 15 of Schedule 19 to, and Part 1 of Schedule 23 to, the Energy Act 2000 (c.20), section 79 of, and paragraph 5 of Schedule 8 to, the Climate Change Act 2008 (c.27), section 72 of, and paragraph 5 of Schedule 8 to, the Energy Act 2011 (c.16), regulation 48 of the Electricity and Gas (Internal Markets) Regulations 2011 (S.I. 2011/2704), articles 2 and 13 of the Electricity and Gas (Smart Meters Licensable Activity) Order 2012 (S.I. 2012/2400), section 26 of, and paragraphs 30 and 43 of part 1 of Schedule 6 to, the Enterprise and Regulatory Reform Act 2013 (c.24), and regulation 5 of the Electricity and Gas (Internal Markets) Regulations (S.I. 2014/3332).
 - (b) (c.44). Section 7 (1) was amended by section 76 of the Utilities Act 2000 (c.27) and section 197 of, and part 1 of Schedule 23 to, the Energy Act 2004 (c.20).

(d) a sewerage undertaker,

for the area of the authorised development and, in relation to any apparatus, means the statutory undertaker to whom it belongs or by whom it is maintained.

3. This Part does not apply to apparatus in respect of which the relations between the undertaker and the statutory undertaker are regulated by the provisions of Part 3 of the 1991 Act.

4. Despite any provision in this Order or anything shown on the land plans, the undertaker does not acquire any apparatus otherwise than by agreement.

5.—(1) If, in the exercise of the powers conferred by this Order, the undertaker acquires any interest in any land in which any apparatus is placed, that apparatus must not be removed under this Part and any right of a statutory undertaker to maintain that apparatus in that land must not be extinguished until (if so required by the statutory undertaker) alternative apparatus has been constructed and is in operation to the reasonable satisfaction of the statutory undertaker in question.

(2) If, for the purpose of executing any works in, on, over or under any land purchased, held, appropriated or used under this Order or in, on, over or under any land within the works limits, the undertaker requires the removal of any apparatus placed in that land, it must give to the statutory undertaker in question written notice of that requirement, together with a plan and section of the work proposed.

(3) If alternative apparatus or any part of such apparatus is to be constructed as a consequence of the removal of apparatus placed on the land referred to in sub-paragraph (2), the statutory undertaker in question must, on receipt of a written notice to that effect from the undertaker, as soon as reasonably possible use its best endeavours to obtain the necessary facilities and rights in other land in which the alternative apparatus is to be constructed.

(4) The statutory undertaker in question must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 35 (arbitration), and after the grant to the statutory undertaker of any such facilities and rights as are referred to in sub-paragraph (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the undertaker to be removed under the provisions of this Part.

(5) Despite anything in sub-paragraph (4), if the undertaker gives notice in writing to the statutory undertaker in question that it desires itself to execute any work or part of any work in connection with the construction or removal of apparatus, that work, instead of being executed by the statutory undertaker, must be executed by the undertaker without unnecessary delay under the superintendence, if so required by the statutory undertaker, and to the reasonable satisfaction of the statutory undertaker.

(6) Nothing in sub-paragraph (5) authorises the undertaker to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 300 millimetres of the apparatus.

6.—(1) Not less than 28 days before starting the execution of any works of the type referred to in paragraph 5(2) that will or may adversely affect any apparatus the removal of which has not been required by the undertaker under that sub-paragraph, the undertaker must submit to the statutory undertaker in question a plan, section and description of the works to be executed.

(2) Those works are to be executed only in accordance with the plan, section and description submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by the statutory undertaker for the alteration or

(a) (c.30). The definition of “water undertaker” within that act was amended by sections 2 and 4 of, and paragraph 32 of Schedule 1 to, the Water Consolidation (Consequential Provisions) Act 1991 (c.60) and sections 58, 101, 141, 160, 163, 189, 190 and 193 of, paragraph 55 of Schedule 25 to, and paragraphs 3, 17, 40, 57 and 58 of Schedule 26 to the Water Act 1989 (c.15).

otherwise for the protection of the apparatus, or for securing access to it, and the statutory undertaker is entitled to watch and inspect the execution of those works.

(3) Any requirements made by a statutory undertaker under sub-paragraph (2) must be made within a period of 21 days beginning with the day on which a plan, section and description under sub-paragraph (1) are submitted to it.

(4) If a statutory undertaker in accordance with sub-paragraph (3) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice to the undertaker of that requirement, paragraphs 1 to 6 apply as if the removal of the apparatus had been required by the undertaker under paragraph 5(2).

(5) Nothing in this paragraph precludes the undertaker from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, a new plan, section and description instead of the plan, section and description previously submitted, and if this is done, the provisions of this paragraph apply to and in respect of the new plan, section and description.

(6) The undertaker is not required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to the statutory undertaker in question notice as soon as is reasonably practicable and a plan, section and description of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (2) in so far as is reasonably practicable in the circumstances.

7.—(1) Subject to the following provisions of this paragraph, the undertaker must repay to a statutory undertaker the proper and reasonable expenses actually incurred by that statutory undertaker in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 5(2).

(2) The value of any apparatus removed under the provisions of this Part is to be deducted from any sum payable under sub-paragraph (1), that value being calculated after removal.

(3) If in accordance with the provisions of this Part—

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker or, in default of agreement, is not determined by arbitration in accordance with article 35 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Part exceeding those which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which but for this sub-paragraph would be payable to the statutory undertaker in question by virtue of sub-paragraph (1) is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus must not be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole must be treated as if it also had been agreed or had been so determined.

(5) An amount which but for this sub-paragraph would be payable to a statutory undertaker in respect of works by virtue of sub-paragraph (1) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the statutory undertaker any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

8.—(1) Subject to sub-paragraphs (2) and (3), if by reason, or in consequence, of the construction of any such works referred to in paragraph 5(2), any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of a statutory undertaker, or there is any material interruption in any service provided, or in the supply of any goods, by any statutory undertaker, the undertaker must—

- (a) bear and pay the proper and reasonable cost actually incurred by that statutory undertaker in making good such damage or restoring the supply; and
- (b) make proper and reasonable compensation to that statutory undertaker for any other reasonable and proper expenses, loss, damages, penalty or costs actually incurred by the statutory undertaker,

by reason or in consequence of any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption as far as it is attributable to the act, neglect or default of a statutory undertaker, its officers, servants, contractors or agents.

(3) A statutory undertaker must give the undertaker reasonable prior written notice of any such claim or demand, and no settlement or compromise may be made without the consent of the undertaker.

9. If in consequence of the exercise of the powers of this Order the access to the statutory undertaker's apparatus is materially obstructed, the undertaker shall provide such reasonable alternative means of access to such apparatus as will enable the statutory undertaker to operate, maintain, repair or replace or use the apparatus.

10. Any difference or dispute arising between the statutory undertaker and the undertaker under this Part of this Schedule shall, unless otherwise agreed in writing between the statutory undertaker and the undertaker, be referred to and settled by arbitration under article 35 (arbitration).

11.—(1) Where, under this Part or anywhere else under this Order, the statutory undertaker is required to give its consent or approval in respect of any matter, that consent or approval must not be unreasonably withheld or delayed.

(2) In respect of any specified work or the acquisition of rights under or over or use of the statutory undertaker's property, the statutory undertaker must co-operate with the undertaker with a view to avoiding undue delay.

PART 3

Protection of Canal and River Trust

1. The provisions of this Part have effect for the protection of Canal & River Trust, unless otherwise agreed in writing between the undertaker and Canal & River Trust.

2. In this Part—

“1965 Act” means the Compulsory Purchase Act 1965;

“Canal & River Trust” means the Canal & River Trust acting as a trustee of the Waterways Infrastructure Trust or any successor body performing the same functions which holds any waterways within the works limits;

“code of practice” means the code of practice for works affecting British waterways (April 2010) as amended from time to time;

“construction” includes execution, placing, alteration and reconstruction, and “construct” and “constructed” have corresponding meanings;

“engineer” means an engineer appointed by Canal & River Trust and approved by the undertaker for the purposes of this Order;

“plans” includes sections, designs, design data, drawings, specifications, soil reports, calculations, descriptions (including descriptions of methods of construction), programmes and details of the extent, timing and duration of any proposed use or occupation of any Canal & River Trust property;

“specified work” means so much of any of the authorised development to be situated upon, across, under, over or within the waterway or that may in any way adversely affect the waterway;

“Canal & River Trust property” means any land owned by Canal & River Trust within the works limits and includes land covered with water, sub-soil, air space and waterways;

“waterway” means the canal within the works limits and includes any pond or other waterway or course situated on Canal & River Trust property, any works, services, apparatus, equipment, lands (including subsoil) or premises belonging to or under the control of Canal & River Trust and held or used by it in connection with its statutory functions.

3.—(1) Where, under this Part or anywhere else under this Order, Canal & River Trust (or the engineer) is required to give its consent or approval in respect of any matter, that consent or approval must not be unreasonably withheld or delayed.

(2) In respect of any specified work or the acquisition of rights under or over or use of Canal & River Trust property, Canal & River Trust must co-operate with the undertaker with a view to avoiding undue delay.

4. The undertaker shall not use any land or property of Canal & River Trust forming part of the waterway for the passage or siting of vehicles, plant or machinery employed in the construction of the specified works other than—

- (a) with the consent in writing of the engineer whose consent shall not be unreasonably withheld or delayed; and
- (b) subject to compliance with such reasonable requirements as the engineer may from time to time specify—
 - (i) for the prevention of detriment; or
 - (ii) in order to avoid or reduce any inconvenience to Canal & River Trust, its officers, agents and all other persons lawfully on such land or property, but nothing in this paragraph shall apply in relation to anything done in accordance with any approval given by Canal & River Trust under paragraph 6.

5.—(1) The undertaker must, before commencing construction of any specified work or carrying out any works on Canal & River Trust property, supply to Canal & River Trust proper and sufficient plans of that work for the reasonable approval (having due and proper regard to the undertaker’s timetable for the construction of the authorised development) of the engineer, and the specified work must not be commenced except in accordance with such plans as have been approved in writing by the engineer (such approval not to be unreasonably withheld or delayed) or settled by arbitration in accordance with article 35 (arbitration) of this Order.

(2) If by the end of the period of 14 days beginning with the date on which such plans have been supplied to Canal & River Trust the engineer has not intimated disapproval of those plans and the grounds of disapproval the engineer is deemed to have approved the plans as submitted.

(3) When signifying approval of the plans, the engineer may specify any protective works (whether temporary or permanent) that in the engineer’s reasonable opinion should be carried out before the commencement of the construction of a specified work to ensure the safety or stability of the waterway or the continued safe and efficient use of the waterway or any Canal & River Trust property, and such protective works (which for the avoidance of doubt may include requirements to fence any proposed works in order to separate the same from the waterways, ponds or watercourses situated on Canal & River Trust property either on a permanent or temporary basis) as may be reasonably necessary for those purposes must be constructed by the undertaker, as agreed between the parties or settled by arbitration in accordance with article 35

(arbitration) of this Order, and such protective works must be carried out at the expense of the undertaker with all reasonable dispatch, and the undertaker must not commence the construction of the specified works until the engineer has notified the undertaker that the protective works have been completed to the engineer's reasonable satisfaction.

6.—(1) Any specified work and any protective works to be constructed by virtue of paragraph 5(3) must, when commenced, be constructed—

- (a) with all reasonable dispatch (having regard to the undertaker's timetable for construction of the authorised development) in accordance with the plans approved or deemed to have been approved or settled under paragraph 5;
- (b) under the supervision (where appropriate and if given) and to the reasonable satisfaction of the engineer;
- (c) in such manner as to cause as little damage or disturbance as is possible to the waterway;
- (d) in such a manner to ensure that as few materials are discharged or deposited into any stream, watercourse, waterway, pond or any other water feature on or forming part of Canal & River Trust property as reasonable practicable; and
- (e) so far as is reasonably practicable, so as not to interfere with the safe use of the waterway.

(2) If any damage to the waterway is caused by the carrying out of, or in consequence of, the construction of a specified work, the undertaker must make good such damage and must pay to Canal & River Trust all reasonable and proper expenses that Canal & River Trust actually incurs by reason of such damage, interference or obstruction.

(3) Nothing in this Part imposes any liability on the undertaker with respect to any damage, costs, expenses or loss attributable to the negligent act or default of Canal & River Trust or its servants, contractors or agents or any liability on Canal & River Trust with respect to any damage, costs, expenses or loss attributable to the negligent act or default of the undertaker or its servants, contractors or agents.

7. The undertaker must—

- (a) at all times afford reasonable facilities to the engineer for access to a specified work during its construction; and
- (b) supply the engineer with all such information as the engineer may reasonably require with regard to a specified work or the method of constructing it.

8. Canal & River Trust must at all times afford reasonable facilities to the undertaker and its agents for access to any works carried out by Canal & River Trust under this Part during their construction and must supply the undertaker with such information as it may reasonably require with regard to such works or the method of constructing them.

9. The undertaker must repay to Canal & River Trust all reasonable and proper fees, costs, charges and expenses reasonably and actually incurred by Canal & River Trust in respect of the approval by the engineer of plans submitted by the undertaker and the supervision by the engineer of the construction of a specified.

10. If at any time during or after the completion of a specified work, Canal & River Trust gives notice to the undertaker informing it that the state of maintenance of any part of the specified work appears to be such as adversely affects the operation of the waterway, the undertaker must, on receipt of such notice, take such steps as may be reasonably necessary to put that specified work in such state of maintenance as to not adversely affect the operation of the waterway.

11. The undertaker and Canal & River Trust may enter into, and carry into effect, agreements for the transfer to the undertaker of—

- (a) any Canal & River Trust property shown on the works or land plans and described in the book of reference;
- (b) any lands, works or other property held in connection with any such Canal & River Trust property; and

- (c) any rights and obligations (whether or not statutory) of Canal & River Trust relating to any of Canal & River Trust property or any lands, works or other property referred to in this paragraph.

12. The undertaker shall repay to Canal & River Trust all fees, costs, charges and expenses reasonably and properly actually incurred by Canal & River Trust –

- (a) in constructing any protective works under the provisions of paragraph 5(3);
- (b) in respect of the approval by the engineer of plans submitted by the undertaker and the supervision by the engineer (if reasonably required) of the construction or repair of a specified work and any protective works;
- (c) in bringing the specified works or any protective works to the notice of users of CRT's network.

13.—(1) If any permanent or temporary alterations or additions to Canal & River Trust property are reasonably necessary in consequence of the construction of a specified work, or during a period of 12 months after the completion of the authorised development in order to ensure the safety of Canal & River Trust property or the continued safe operation of the waterway, such alterations and additions may be carried out by Canal & River Trust, and if Canal & River Trust gives to the undertaker reasonable notice of its intention to carry out such alterations or additions (which must be specified in the notice), the undertaker must pay to Canal & River Trust the proper and reasonable cost of those alterations or additions.

(2) If the cost of maintaining, working or renewing Canal & River Trust property is reduced in consequence of any such alterations or additions, a capitalised sum representing such saving must be set off against any sum payable by the undertaker to Canal & River Trust under this paragraph.

14.—(1) Canal & River Trust must, on receipt of a request from the undertaker provide the undertaker free of charge with written estimates of the costs, charges, expenses and other liabilities for which the undertaker is or will become liable under this Part and with such information as may reasonably enable the undertaker to assess the reasonableness of any such estimate or claim made or to be made pursuant to this Part.

(2) In respect of any sums due to the Canal & River Trust from the undertaker referred to in this Part, the Canal & River Trust shall provide such details of the formula by which those sums have been calculated and a breakdown of those sums as the undertaker may reasonably require.

(3) In the assessment of any sums payable to Canal & River Trust under this Part, there must not be taken into account any increase in the sums claimed that are attributable to any action taken by or any agreement entered into by Canal & River Trust if that action or agreement was not reasonably necessary and was taken or entered into with a view to obtaining the payment of those sums by the undertaker under this Part or increasing the sums so payable.

15. Any difference or dispute arising between the operator and the undertaker under this Part of this Schedule shall, unless otherwise agreed in writing between the operator and the undertaker, be referred to and settled by arbitration under article 35 (arbitration).

PART 4

Protection of Environment Agency

1.—(1) The provisions of this Part have effect unless otherwise agreed in writing between the undertaker and the Agency.

(2) In this Part—

“1973 Transfer Rights” means a right of way over parts of plots 1, 30 and 31 (as shown on the land plans) pursuant to a transfer dated 19 January 1973 as detailed in registered title number MX410055;

“Agency” means the Environment Agency;

2. The undertaker must not in the exercise of the powers conferred by this Order unreasonably prevent the Agency's access to and use of the dosing station adjacent to Salmon's Brook in the vicinity of the southern entrance to the Edmonton EcoPark except where construction and operation of the authorised development reasonably requires interference with or obstruction of the free, uninterrupted and safe use of the 1973 Transfer Rights in which case a suitable alternative access shall be agreed with the Agency and provided prior to and for the duration of any such interference.

3. Any difference or dispute arising between the undertaker and the Agency under this Part of this Schedule shall, unless otherwise agreed in writing between the Agency and the undertaker, be referred to and settled by arbitration under article 35 (arbitration).

EXPLANATORY NOTE

(This note is not part of the Order)

This Order grants development consent for and authorises North London Waste Authority (referred to in this Order as the undertaker) to construct, operate and maintain an electricity and heat generating station, together with associated development, in Edmonton, North London. The Order would permit the undertaker to acquire, compulsorily or by agreement, land and rights in land and to use land for this purpose. A copy of the Order plans and the book of reference mentioned in this Order and certified in accordance with article 34 of this Order (certification of documents and plans) may be inspected free of charge during working hours at the offices of North London Waste Authority, Unit 1B, Berol House, 25 Ashley Road, Tottenham Hale, London N17 9LJ.
