Subject: RE: URGENT North London Waste Authority - Edmonton Eco Park DCO - Position statement - Kennet Properties Limited and Thames Water Utilities Limited
Date: 06 July 2016 06:21:09

I write further to my email of yesterday on behalf of Thames Water Utilities Limited and Kennet Properties Limited. I would be grateful if the Examining Authority could be updated at the hearing this morning.

Negotiations are still continuing regarding the interests to be compulsorily acquired. In view of the progress made to date Thames Water and Kennet Properties do not think it would be a good use of inquiry time for their objections to be expanded today and therefore they are content to rely upon the content of their written objections. In the event that agreement is reached with the acquiring authority before the close of the examination the Examining Authority will be immediately updated.

Subject: URGENT North London Waste Authority - Edmonton Eco Park DCO - Position statement - Kennet Properties Limited and Thames Water Utilities Limited

I write on behalf of Thames Water Utilities Limited and Kennet Properties Limited who have been engaged in detailed discussions with the NLWA regarding their concerns about the draft application for a DCO.

Whilst the negotiations have yet to complete, the parties have agreed most of the amendments to the contents of the protective provisions that will benefit Thames Water, with the detail of a couple of amendments yet to be finalised (though the relevant principles have been agreed). The amendments

to the protective provisions will be attached to a private settlement agreement. The parties have also agreed most of the content of a settlement agreement, with the detail of a few provisions remaining (though the relevant principles have also been agreed).

Thames Water's concerns regarding the previously proposed amendment to the DCO by LB Enfield in relation to the reinstatement of the temporary laydown area have been overcome by the revised SoCG between NLWA and LB Enfield dated 30th June 2016 which confirms at paragraph 3.26.2 that: "It is agreed that the Temporary Laydown Area will be restored to its pre-development state including removal of surfacing, underground tanks and any SuDs features." The NWLA has agreed to resist any changes to this principle from any other party. Accordingly Thames Water Utilities Limited will not attend the hearing today as the relevant matters that concerned them have been largely settled and its objections will be withdrawn once the settlement agreement has been completed.

Negotiations are continuing regarding the interests to be compulsorily acquired and Thames Water and Kennet Properties are hopeful that their attendance at the hearing on 6 July may also not be required. They will confirm their position to the Examining Authority later today.
