Subject: EN010071 - North London Heat and Power [DLAP-UKMATTERS.FID3822344]

Dear Sirs

Deadline 7 Response on behalf of National Grid - Protective Provisions.

At the issue specific hearing, to discuss the detailed drafting of the Development Consent Order, held on 5th July 2016, National Grid made representations to the Examination that its preferred form of protective provisions should appear on the Order. The Member expressed agreement with National Grid's position and directed that the principle of National Grid's bespoke protective provisions being included in the Order was supported. National Grid has provided the Applicant with a revised version of protective provisions for its consideration and the Applicant has been in contact with National Grid to work through changes to agree a form of protective provisions to be included on the face of the Order. That discussion is still on-going and has not concluded.

National Grid understands that the Applicant does not intend to submit a form of provisions for the protection of National Grid for deadline 7 but the parties will instead continue to seek agreement on a form which will be submitted to the Examination as soon as possible and the parties are looking to do so in another 7 days. If it is not possible for the parties to reach an agreement on the form of protective provisions to be included for the benefit of National Grid, National Grid reserves its right to submit the form that it considers should be included, taking into account the Member's comments made at the issue specific hearing held on the 5 July 2016.

Although it is hoped that agreement will be reached, if it is not, National Grid will address in its further submissions the particular justification for including various provisions and, to the extent not agreed between the parties at that point, will respond in detail to the Applicant's deadline 5 response to National Grid's protective provisions (Document AD07.08 - 2Q 10.15).

In respect of the overlap of DCO powers discussed at the issue specific hearing, National Grid and the Applicant are in agreement that the matters outlined in the recent joint statement to Deadline 6 are agreed in principle and need to be committed to a private agreement between the parties to regulate how the two DCOs can operate simultaneously.

We will update the Examining Authority in due course as to whether agreement has been reached on protective provisions, or with further submissions as necessary. In an abundance of caution, National Grid also reserves its position at this time to appear at the third hearing reserved for the 17/18 August to make oral representations on the form of protective provisions to be included.

Yours faithfully

Sophie Stewart
