To: Richard Price

I wish to register my interest in attending the issue specific and the open floor hearings on Tuesday 17<sup>th</sup> May. I would like to raise the issue of power lines and question the level of assurance given that all power lines will be buried.

I would also like to know if there are any plans to create and fund projects that will directly benefit the residents of Llanberis and surrounding area to mitigate the negative impacts associated with the developments.

Many thanks,

**Dan Jackson**
