**Subject:**

Dear Mr Stuart Cowperthwaite,

This email stands in addition to my previous one registering my interest and identified as reference: 10032004

[Glyn Rhonwy Pumped Storage | National Infrastructure Planning](#)

As a parent of children who have long-enjoyed playing in the waters of Padarn Lake, I am now extremely concerned about the recent revelations of munitions chemicals indicated at the Glyn Rhonwy site that may affect Llyn Padarn if the proposed development were to go ahead as planned.

Presumably, in the light of the recently unearthed evidence, such a development would leave both developers &/Gwynedd council vulnerable to serious prosecution(s) if the swimmers of Llyn Padarn, or their current or subsequent children, develop health or developmental problems that may be linked to munition-related chemicals currently identified as associated with Glyn Rhonwy.

It does not seem a solution to proceed knowing the chemical risks and then simply prohibit Padarn Lake swimming (there are laws against the knowing pollution of water sources etc) . Given the above, I sincerely urge you to ensure that Llyn Padarn is protected, in particular, from chemical contamination by the Glyn Rhonwy scheme.

Thank you for giving this matter your attention,

Best regards

Brad Nicholas
